SUBJECT INDEX: VOLUME 53

Acetabulol

Effect of acetabulol on left ventricular hemodynamics and anatomy in systemic hypertension, 791

Acetylsalicylic acid

See Aspirin

Acoustic reflectance

Altered acoustic reflectance on two-dimensional echocardiography as an early predictor of myocardial infarct size, 1699

Acquired immune deficiency syndrome

Cardiac involvement by Kaposi's sarcoma in acquired immune deficiency syndrome (AIDS), 983

Adenosine triphosphate

Atrial fibrillation induced by adenosine triphosphate, 1405

Adiposity

Left-axis deviation and adiposity: the United States Health and Nutrition Examination Survey, 1129

Adrenoreceptor

Cardiorespiratory effects of isosorbide dinitrate and nifedipine in combination with nadolol: a double-blind comparative study of beneficial and adverse antianginal drug interactions, 487

Adriamycin

Adriamycin cardiotoxicity (LE), 263

Aging

Augmentation of atrial contribution to left ventricular inflow with aging as assessed by intracardiac Doppler flowmetry, 586

Ajmaline

Intra-Hisian blocks of several degrees induced by the ajmaline test, 1458
Nonfatal ajmaline cardiotoxicity, 958

Alcoholism

Repolarization alternans associated with alcoholism and hypomagnesemia, 390

Aldosterone

Role of the renin-angiotensin system in the development of congestive heart failure in the dog as assessed by chronic converting-enzyme blockade, 614

Alpha-adrenergic blockade

Selective alpha₁-adrenergic antagonists: therapeutically relevant antihypertensive agents, 16A

Alpha-receptor hypersensitivity

Accelerated systemic hypertension after cardiac transplantation—possible vascular alpha-receptor hypersensitivity, 334

Ambulatory monitoring

See also Holter monitoring
Diagnostic efficacy of 24-hour electrocardiographic monitoring for syncope, 1013
Sudden death during ambulatory electrocardiographic monitoring: importance of morphologic confirmation to establish cause of death, 1403

Amiodarone

Effects of amiodarone on serum quinidine and procainamide levels, 1264
Effects of amiodarone on supraventricular tachycardia involving bypass tracts, 93
Long-term clinical outcome of ventricular tachycardia or fibrillation treated with amiodarone, 1558

Magnesium therapy for torsades de pointes, 528

Multicenter controlled observation of a low-dose regimen of amiodarone for treatment of severe ventricular arrhythmias, 1564

Plasma and red blood cell concentrations of amiodarone during chronic therapy, 912

Ventricular tachyarrhythmias complicating amiodarone therapy in the presence of hypokalemia, 1462

Amyloidosis

Cardiac amyloidosis simulating hypertrophic cardiomyopathy, 969
Negative myocardial technetium-99m pyrophosphate scintigraphy in amyloid heart disease associated with type AA systemic amyloidosis, 380

Anesthetic agents

Myocardial depression by anesthetic agents (halothane, enflurane and nitrous oxide): quantitation based on end-systolic pressure-dimension relations, 243

Aneurysm

Acute and chronic complications of laser angioplasty: vascular wall damage and formation of aneurysms in the atherosclerotic rabbit, 290

Aneurysm of the atrial septum as diagnosed by echocardiography: analysis of 11 patients, 1401

Coronary artery aneurysm complicating bypass tract surgery for the Wolff-Parkinson-White syndrome, 344

Detection and quantitation of right ventricular outlet obstruction secondary to aneurysm of the membranous ventricular septum by combined two-dimensional echocardiography: continuous-wave Doppler ultrasound, 1476

Intravenous digital subtraction angiography to assess aneurysms of the ventricular and atrial septum pre- and postoperatively, 383

Late sequelae of femoral artery catheterization, 1205

Pulmonary artery aneurysms: echocardiographic features in 5 patients, 1438

Angina pectoris

An evaluation of three revascularization procedures in the rehabilitation of the coronary patient, 328

Antianginal effects of corwin, a new beta₂-adrenoreceptor partial agonist, 439

Arterial complications of attempted Swan-Ganz insertion, 340

Bepridil for chronic stable angina pectoris: results of a prospective multicenter, placebo-controlled, dose-ranging study in 77 patients, 35

Cardiorespiratory effects of isosorbide dinitrate and nifedipine in combination with nadolol: a double-blind comparative study of beneficial and adverse antianginal drug interactions, 487

Characteristics and outcome of medical nonadherers in the Veterans Administration Cooperative Study of Coronary Artery Surgery, 23

Comparative value of 2-dimensional echocardiography and radionuclide

angiography for quantitating changes in left ventricular performance during exercise limited by angina pectoris, 42

Coronary arteriographic findings in symptomatic right bundle branch block, 770

Diffuse or segmental narrowing (spasm) of the coronary arteries during smoking demonstrated on angiography, 354

Dose-response relation of antianginal activity of isosorbide dinitrate, 700

Early right atrial pacing after myocardial infarction. II. Results in 77 patients with predischARGE angina pectoris, congestive heart failure, or age older than 70 years, 418

Effects of bepridil on exercise tolerance in chronic stable angina: a double-blind, randomized, placebo-controlled, crossover trial, 679

Effects of prostacyclin on coronary hemodynamics at rest and in response to cold pressor testing in patients with angina pectoris, 1500

Evaluation of bepridil, a new antianginal agent: clinical and hemodynamic alterations during the treatment of stable angina pectoris, 29

Hemodynamic effects of nifedipine during upright exercise in stable angina pectoris and either normal or severely impaired left ventricular function, 451

Improved efficacy of high-dose versus medium- and low-dose diltiazem therapy for chronic stable angina pectoris, 669

Improved exercise tolerance after propranolol, diltiazem or nifedipine in angina pectoris: comparison at 1, 3 and 8 hours and correlation with plasma drug concentration, 1

Inhibition of platelet function by injectable isosorbide dinitrate, 1683

Left ventricular function in patients with coronary heart disease in the presence or absence of angina pectoris during exercise radionuclide ventriculography, 1239

Oral sustained-release nitroglycerin in chronic stable angina: a multicenter, double-blind, randomized crossover trial, 15

Paradoxical angina after nifedipine: angiographic documentation, 345

Percutaneous angioplasty of stenoses of bypass grafts or of bypass graft anastomotic sites, 666

Possible interactions of indomethacin and nitrates in angina pectoris, 225

Randomized double-blind comparison of gallopamil and propranolol in stable angina pectoris, 684

Randomized, placebo-controlled evaluation of lidoflazine in patients receiving beta-blocker therapy with propranolol: improvement in anginal symptoms and exercise tolerance with combined drug therapy, 1003

Recanalization of occluded left main coronary artery in unstable angina pectoris, 1725

Variant angina in siblings with mild coronary artery disease, 956

Ventricular arrhythmias during coronary angiography in patients with angina pectoris or chest pain syndromes, 1496

Angiography

- A new digital electronic caliper for measurement of coronary arterial stenosis: comparison with visual estimates and computer-assisted measurements, 689
- A randomized, angiographically controlled trial of intracoronary streptokinase in acute myocardial infarction, 404
- Comparison of the multivariate analysis and CADENZA systems for determination of the probability of coronary artery disease, 493
- Coronary artery spasm superimposed on coronary artery dissection, 363
- Diffuse or segmental narrowing (spasm) of the coronary arteries during smoking demonstrated on angiography, 354
- Effects of age on radionuclide angiographic detection and quantitation of left-to-right shunts, 879
- Effects on ventricular function of disopyramide, procainamide and quinidine as determined by radionuclide angiography, 1292
- Intravenous digital subtraction angiography to assess aneurysms of the ventricular and atrial septum pre- and postoperatively, 383
- Limitations of qualitative angiographic grading in aortic or mitral regurgitation, 1593
- Location of myocardial necrosis as an independent determinant of left ventricular performance: analysis of 96 patients, 483
- Measurement of aortic root size by biplane angiography before cardiac valve replacement, 1084
- Paradoxical angina after nifedipine: angiographic documentation, 345
- Recanalization of occluded left main coronary artery in unstable angina pectoris, 1725
- Risk of side branch occlusion during coronary angioplasty, 10
- The future of computerized cardiac angiography, 1722
- Uhl's anomaly (parchment right ventricle): clinical, echocardiographic, radionuclear, hemodynamic and angiographic features in 2 patients, 635
- Value of lead V₄R for recognition of the infarct coronary artery in acute inferior myocardial infarction, 1538
- Ventricular arrhythmias during coronary angiography in patients with angina pectoris or chest pain syndromes, 1496

Angiography, radionuclide

- Abnormal left ventricular filling: an early finding in mild to moderate systemic hypertension, 120
- Comparative value of 2-dimensional echocardiography and radionuclide angiography for quantitating changes in left ventricular performance during exercise limited by angina pectoris, 42
- Noninvasive diagnosis of pulmonary arterial hypertension in chronic obstructive pulmonary disease: right ventricular ejection fraction at rest, 1349
- Prognostic indicators from radionuclide angiography in medically treated patients with coronary artery disease, 18
- Quantitative radionuclide angiography using gold-195m, 1442

Angioplasty

- Acute and chronic complications of laser angioplasty: vascular wall damage and formation of aneurysms in the atherosclerotic rabbit, 290
- Effect of dextran and aspirin in platelet adherence after transluminal angioplasty of normal canine coronary arteries, 1695
- Angioplasty, percutaneous transluminal coronary**
 - See Proceedings of the National Heart, Lung, and Blood Institute Workshop of the Outcome of Percutaneous Transluminal Coronary Angioplasty
 - Balloon coarctation angioplasty in an adult, 350
 - Distal embolization of a coronary artery bypass graft atheroma during percutaneous transluminal coronary angioplasty, 953
 - Effects of percutaneous transluminal coronary angioplasty: intracoronary thrombolysis with urokinase in acute myocardial infarction, 1217
 - Percutaneous angioplasty of stenoses of bypass grafts or of bypass graft anastomotic sites, 666
 - Percutaneous transluminal coronary angioplasty for stenosis of the ostium of the right coronary artery after irradiation for Hodgkin's disease, 341
 - Risk of side branch occlusion during coronary angioplasty, 10
 - Successful recanalization of a left main coronary artery occlusion, 356
- Angiotensin-converting enzyme inhibitor**
 - Antihypertensive efficacy of once daily MK-521, a new nonsulfhydryl angiotensin-converting enzyme inhibitor, 116
- Animal studies**
 - See also Canine studies
 - Coronary blood flow in genetic cardiac hypertrophy, 1360
 - Histologic and ultrastructural studies on the myocardium in spontaneously diabetic KK mice: a new animal model of cardiomyopathy, 320
 - In vitro analysis of boundary identification techniques used in quantification of two-dimensional echocardiograms, 1374
 - Modification by the Hancock T6 process of calcification of bioprosthetic cardiac valves implanted in sheep, 1388
- Antiarrhythmic therapy**
 - See also Arrhythmias
 - A controlled trial of propafenone for treatment of frequent and repetitive ventricular premature complexes, 77
 - Antiarrhythmic and electrophysiologic actions of bethanidine sulfate in primary ventricular fibrillation or life-threatening ventricular tachycardia, 1268
 - Antiarrhythmic treatment: an overview, 88
 - Clinical importance of metabolites of antiarrhythmic drugs, 248
 - Comparison of the canine tissue distribution of dipoxin after acute and chronic administration: implication for digitalis therapy, 1703
 - Effect of moricizine hydrochloride in reducing chronic high-frequency ventricular arrhythmias: results of a prospective, controlled trial, 745
 - Electropharmacology of nonsustained ventricular tachycardia: effects of class I antiarrhythmic agents, verapamil and propranolol, 738

- Flecainide: its proarrhythmic effect and expected changes on the surface electrocardiogram, 898
- Intra-Hisian blocks of several degrees induced by the ajmaline test, 1458
- Management of recurrent ventricular tachycardia: economic impact of therapeutic alternatives, 531
- Multicenter controlled observation of a low-dose regimen of amiodarone for treatment of severe ventricular arrhythmias, 1584
- Nonfatal ajmaline cardiotoxicity, 958
- Pharmacodynamics of the initiation of antiarrhythmic therapy with flecainide, 544
- Pirmenol for control of ventricular arrhythmias: oral dose-ranging and short-term maintenance study, 522
- Prognostic factors in nonsustained ventricular tachycardia, 1275
- Anticoagulant therapy**
 - Evidence for the continued existence of the postmyocardial infarction (Dressler's) syndrome, 1201
- Antihypertensive therapy**
 - See also Hypertension
 - Antihypertensive efficacy of once daily MK-521, a new nonsulfhydryl angiotensin-converting enzyme inhibitor, 116
 - Antihypertensive therapy with diltiazem: comparison with hydrochlorothiazide, 1588
 - Cardiovascular consequences of primary antihypertensive therapy with prazosin hydrochloride, 32A
 - Comparison of oral MK 421 and propranolol in mild to moderate essential hypertension and their effects on arterial and venous vessels of the forearm, 781
 - Effect of acebutolol on left ventricular hemodynamics and anatomy in systemic hypertension, 791
 - Failure of antihypertensive therapy with diuretic, β -blocker and calcium channel blocking drugs to consistently reverse left ventricular diastolic filling abnormalities, 1583
 - Monotherapy in mild to moderate hypertension: comparison of hydrochlorothiazide, propranolol and prazosin, 24A
 - Prazosin as initial antihypertensive therapy: correlates of sympathetic function, 29A
 - Selective α_1 -adrenergic antagonists: therapeutically relevant antihypertensive agents, 16A
 - Therapy of mild hypertension: an overview, 2A
- Anxiety**
 - Lack of association between dermal arches and mitral valve prolapse: relation to anxiety, 148
- Aorta**
 - See also Aortic valve
 - Cervical origin of the right subclavian artery in aortic arch interruption: pathogenesis and significance, 892
 - Complete transposition of the great arteries and coarctation of the aorta, 1627
 - Morphologic features of an intact ventricular septum susceptible to subpulmonary obstruction in complete transposition, 1633
 - Two-dimensional echocardiographic determination of aortic and pulmonary artery sizes from infancy to adulthood in normal subjects, 218

Aortic arch

- Bilateral ductus arteriosus (or remnant): an analysis of 27 patients, 884
- Cervical origin of the right subclavian artery in aortic arch interruption: pathogenesis and significance, 892

Aortic dissection

- Risk factors for aortic dissection: a necropsy study of 161 cases, 849

Aortic occlusion

- Influence of length of aortic occlusion with cold potassium cardioplegia on early and late mortality in cardiac valve replacement, 182

Aortic regurgitation

- Amounts of coronary arterial narrowing by atherosclerotic plaques in clinically isolated, chronic, pure aortic regurgitation: analysis of 37 necropsy patients older than 30 years, 173
- Bacterial associated porcine heterograft heart valve calcification, 370
- Clinical features and course of aortitis syndrome in Japanese women older than 40 years, 859
- Coronary artery disease and aortic regurgitation (LE), 990
- Favorable effects of hydralazine on the hemodynamic response to isometric exercise in chronic severe aortic regurgitation, 1603
- Limitations of qualitative angiographic grading in aortic or mitral regurgitation, 1593
- The surgical correction of aortic regurgitation: bicuspid conversion, 328
- Use of left ventricular filling and ejection patterns in assessing severity of chronic mitral and aortic regurgitation, 1054

Aortic stenosis

- Bacterial associated porcine heterograft heart valve calcification, 370
- Cardiac conduction defects in patients older than 60 years with aortic stenosis with and without mitral annular calcium, 169
- Percutaneous balloon aortic valvuloplasty: results in 23 patients, 194

Aortic valve

- Effect of conotruncal constriction on aortic-mitral valve continuity in the stage 18, 21 and 24 chick embryo, 324
- Influence of length of aortic occlusion with cold potassium cardioplegia on early and late mortality in cardiac valve replacement, 182
- Measurement of aortic root size by biplane angiography before cardiac valve replacement, 1084
- Prophylactic replacement of a Starr-Edwards model 1000 aortic valve prosthesis in place for 20 years, 969
- Two-dimensional echocardiography diagnosis of quadricuspid aortic valve, 1732
- Ultrasonic recognition of aortic valve atresia in utero, 391
- Ventricular arrhythmias in aortic valve disease: analysis of 102 patients, 1079
- Vigorous physical training after aortic valve replacement: analysis of 10 patients, 562

Aortitis syndrome

- Clinical features and course of aortitis syndrome in Japanese women older than 40 years, 859

Arrhythmias

- See also Ventricular arrhythmias
- Antiarrhythmic treatment: an overview, 8B

A proposal for the clinical use of flecainide, 112B

Arrhythmias and pericardial disease (LE), 265

Arrhythmia versus dysrhythmia, 628

Cardiac and skeletal myopathy associated with cardiac dysrhythmias, 731

Conduction system abnormalities in symptomatic mitral valve prolapse: an electrophysiologic analysis of 60 patients, 1075

Coronary heart disease III. Chronic arrhythmias as influenced by the Beck operation, 14E?

Determinants of arrhythmogenic ventricular activity detected on the body surface QRS in patients with coronary artery disease, 1519

Diagnostic efficacy of 24-hour electrocardiographic monitoring for syncope, 1013

Effects of amiodarone on serum quinidine and procainamide levels, 1264

Electrophysiologic basis for arrhythmias in ischemic heart disease, 1B

Frequency of arrhythmias in acute pericarditis determined by Holter monitoring, 842

Interaction of flecainide with digoxin and propranolol, 52B

Management of recurrent ventricular tachycardia: economic impact of therapeutic alternatives, 531

Mechanism of caffeine-induced arrhythmias in canine cardiac Purkinje fibers, 313

Potentially lethal arrhythmias and their management in hypertrophic cardiomyopathy, 1608

Significance of ventricular arrhythmias in idiopathic dilated cardiomyopathy, 902

The AJC in March 1959, 803

Transesophageal atrial pacing threshold: role of interelectrode spacing, pulse width and catheter insertion depth, 63

Value of radiotelemetry in a community hospital, 1284

Visually provoked complete atrioventricular block: an unusual form of deglutition syncope, 1408

Arterial fistula

- Recognition of coronary arterial fistula by Doppler 2-dimensional echocardiography, 392

Arterial vessels

- Comparison of oral MK 421 and propranolol in mild to moderate essential hypertension and their effects on arterial and venous vessels of the forearm, 781

Arteriography

- Association between leukocyte count and the presence and extent of coronary atherosclerosis as determined by coronary arteriography, 997
- Comparative effects of ionic and nonionic contrast materials on indexes of isovolumic contraction and relaxation in humans, 228
- Coronary arteriographic findings in symptomatic right bundle branch block, 770
- Coronary thrombolysis by intravenous streptokinase in acute myocardial infarction: acute and follow-up studies, 655

Aspirin

- Effect of dextran and aspirin in platelet adherence after transluminal angioplasty of normal canine coronary arteries, 1695

Effects of a selective thromboxane synthetase inhibitor, dazoxiben, and of acetylsalicylic acid on myocardial ischemia in patients with coronary artery disease, 1255

Assortative mating

- Increased frequency of coronary heart disease in relatives of wives of myocardial infarct survivors: assortative mating for lifestyle and risk factors? 399

Atenolol

- Effects of beta₁-selective and nonselective beta-adrenoceptor blockade during exercise conditioning in healthy adults, 1656

Atherosclerosis

- See also Coronary artery disease
- Acute and chronic complications of laser angioplasty: vascular wall damage and formation of aneurysms in the atherosclerotic rabbit, 290
- Amounts of coronary arterial narrowing by atherosclerotic plaques in clinically isolated, chronic, pure aortic regurgitation: analysis of 37 necropsy patients older than 30 years, 173
- Association between leukocyte count and the presence and extent of coronary atherosclerosis as determined by coronary arteriography, 997
- Blood velocity in the right coronary artery: relation to the distribution of atherosclerotic lesions, 1008
- Progression of atherosclerosis in coronary arteries and bypass grafts: Ten years later, 102C

Athletes

- Electrocardiogram of the athlete: an analysis of 289 professional football players, 1339
- Hypertrophic cardiomyopathy compatible with successful completion of the marathon, 1470
- Plasma MB creatine kinase after vigorous exercise in professional athletes, 856

Atrial, right

- Two-dimensional and pulsed Doppler echocardiographic diagnosis of an acquired left ventricular-right atrial communication, 396

Atrial contraction

- Augmentation of atrial contribution to left ventricular inflow with aging as assessed by intracardiac Doppler flowmetry, 586

Atrial dimension

- Assessment of electrocardiographic criteria for left atrial enlargement in childhood, 215
- Sensitivity and specificity of commonly used electrocardiographic criteria for left atrial enlargement determined by M-mode echocardiography, 829

Atrial fibrillation

- Atrial fibrillation induced by adenosine triphosphate, 1405
- Influence of basic atrial rhythm of intraatrial conduction of extrastimuli, 1018
- Intermittent mitral regurgitation due to Beall valve dysfunction: analysis of 13 patients with atrial fibrillation, 1071

Atrial parasystole

- Influence of early nonparasytolic impulses on the atrial parasystolic rhythm, 1455

Atrial puncture

- Transseptal left atrial puncture: new techniques for the measurement of left atrial pressure in man, 1451

Atrial septal defect

- Aneurysm of the atrial septum as diagnosed by echocardiography: analysis of 11 patients, 1401
- Combined contrast echocardiographic and radionuclide diagnosis of atrial septal defect: accuracy of the technique and analysis of erroneous diagnoses, 1639
- Electrophysiologic abnormalities of children with ostium secundum atrial septal defect, 1643
- Intravenous digital subtraction angiography to assess aneurysms of the ventricular and atrial septum pre- and postoperatively, 383
- Noninvasive assessment of right ventricular systolic pressure in atrial septal defect: analysis of the end-systolic configuration of the ventricular septum by two-dimensional echocardiography, 1117
- Ostium secundum atrial septal defect—survival for 87 and 94 years, 388
- Sinus node function and conduction system before and after surgery for secundum atrial septal defect: an electrophysiologic study, 1415
- Transseptal left atrial puncture: new techniques for the measurement of left atrial pressure in man, 1451

Atrial shunt

- Prevalence of right-to-left atrial shunting in a healthy population: detection by Valsalva maneuver contrast echocardiography, 1478

Atrial standstill

- Familial atrial standstill and inexcitability in childhood, 965

Atrial stimulation

- Atrioventricular junctional rhythm induced by atrial stimulation: a suspected clinical manifestation of "triggered" activity, 631
- Influence of basic atrial rhythm of intraatrial conduction of extrastimuli, 1018

Atrial systole, mechanical

- Evidence of remnant recipient atria producing mechanical atrial systole after heart transplantation, 642

Atrio-His bypass tract

- Effects of amiodarone on supraventricular tachycardia involving bypass tracts, 93

Atrioventricular block

- Atrioventricular block and preexcitation in hypertrophic cardiomyopathy, 961
- Complete heart block in Reiter's syndrome, 967
- Periodic variation in atrioventricular conduction time: mechanisms of initiation, maintenance and termination of periods of long PR intervals, 1288
- Transient atrioventricular block after open-heart surgery for congenital heart disease, 198
- Visually provoked complete atrioventricular block: an unusual form of deglutition syncope, 1408

Atrioventricular canal

- Ebstein's anomaly of the tricuspid valve in persistent common atrioventricular canal, 640

Atrioventricular conduction

- Electrophysiologic effects of flecainide acetate on sinus node function, anomalous atrioventricular connections, and pacemaker thresholds, 308
- Intra-Hisian blocks of several degrees induced by the ajmaline test, 1458
- Periodic variation in atrioventricular conduction time: mechanisms of

initiation, maintenance and termination of periods of long PR intervals, 1288

Atrioventricular junctional rhythm

- Atrioventricular junctional rhythm induced by atrial stimulation: a suspected clinical manifestation of "triggered" activity, 631

Atrioventricular node

- Combined verapamil and propranolol for supraventricular tachycardia, 757
- Effects of intravenous and oral disopyramide on paroxysmal atrioventricular nodal tachycardia, 88
- Electrophysiologic abnormalities of children with ostium secundum atrial septal defect, 1643
- Entrainment of atrioventricular nodal reentrant tachycardias during overdrive pacing from high right atrium and coronary sinus: With special reference to atrioventricular dissociation and 2:1 retrograde block during tachycardias, 1570

Further support or added evidence for A-V nodal rhythms (LE), 1412

Patterns of human atrioventricular nodal accommodation to a sudden acceleration of atrial rate, 71

Utilization of an accessory pathway as the anterograde limb during the permanent form of junctional reciprocating tachycardia, 365

Atrioventricular septal defect

- Coarctation of the aorta or subaortic stenosis with atrioventricular septal defect, 1421
- Left atrioventricular valve in atrioventricular septal defect (LE), 1411

Auscultation

- Audibility of an artificial third heart sound in relation to its frequency, amplitude, delay from the second heart sound and the experience of the observer, 1169

Automated edge detection

- Computer-assisted edge detection in two-dimensional echocardiography: comparison with anatomic data, 1380

Autonomic tone

- QT/QT₂ ratio as an index of autonomic tone changes, 818

Balloon atrial septostomy

- Beside balloon atrial septostomy using echocardiographic monitoring, 971

Balloon valvuloplasty

- Percutaneous balloon aortic valvuloplasty: results in 23 patients, 194

Bayesian analysis

- Comparison of the multivariate analysis and CADENZA systems for determination of the probability of coronary artery disease, 493

Bayes' theorem

- Practical diagnosis of coronary artery disease: a Bayes' theorem nomogram to correlate clinical data with noninvasive exercise tests, 252

Bepridil

- Bepridil for chronic stable angina pectoris: results of a prospective multicenter, placebo-controlled, dose-ranging study in 77 patients, 35
- Effects of bepridil on exercise tolerance in chronic stable angina: a double-blind, randomized, placebo-controlled, crossover trial, 679
- Electrophysiologic effects of bepridil in the anesthetized dog studied by endocardial electrodes, 1707

Evaluation of bepridil, a new antianginal agent: clinical and hemodynamic alterations during the treatment of stable angina pectoris, 29

Beta-adrenergic blockade

- Antianginal effects of corwin, a new beta-adrenoceptor partial agonist, 439
- Beta-adrenergic receptor blocking drugs in hypertension, 12A
- Comparison of supervised and unsupervised exercise training after coronary bypass surgery, 1524
- Differential effects of sotalol and metoprolol on induction of paroxysmal supraventricular tachycardia, 1022
- Effects of beta₁-selective and nonselective beta-adrenoceptor blockade during exercise conditioning in healthy adults, 1656
- Effects of prazosin on serum lipids in patients with essential hypertension: a review of the findings presented at the Satellite symposium on coronary heart disease: hypertension and other risk factors, Milan, 1983, 21A
- Effects of timolol and propranolol on inducible sustained ventricular tachyarrhythmias in dogs with subacute myocardial infarction, 275
- Failure of antihypertensive therapy with diuretic, beta-blocking and calcium channel-blocking drugs to consistently reverse left ventricular diastolic filling abnormalities, 1583
- Potentially lethal arrhythmias and their management in hypertrophic cardiomyopathy, 1608
- Randomized, placebo-controlled evaluation of lidoflazine in patients receiving beta-blocker therapy with propranolol: improvement in anginal symptoms and exercise tolerance with combined drug therapy, 1003
- Reproducibility and treatment of exercise-induced ventricular tachycardia, 751

Bethanidine sulfate

- Antiarrhythmic and electrophysiologic actions of bethanidine sulfate in primary ventricular fibrillation or life-threatening ventricular tachycardia, 1268

Bicuspid aortic valve

- Risk factors for aortic dissection: a necropsy study of 161 cases, 849

Bicuspid conversion

- The surgical correction of aortic regurgitation: bicuspid conversion, 328

Bilateral ductus arteriosus

- Bilateral ductus arteriosus (or remnant): an analysis of 27 patients, 884

Bioprostheses

CORONARY HEART DISEASE

- 1 Improved Exercise Tolerance After Propranolol, Diltiazem or Nifedipine in Angina Pectoris: Comparison at 1, 3 and 8 Hours and Correlation with Plasma Drug Concentration. Bernard R. Chaitman, Pierre Wagnier, Andre Pasternac, Genevieve Brevers, Jean-Marie Scholl, Jules Lam, Margot Methe, Ronald J. Ferguson, and Martial G. Bourassa
- 10 Risk of Side Branch Occlusion During Coronary Angioplasty. Bernhard Meier, Andreas R. Gruentzig, Spencer B. King III, John S. Douglas, Jr., Jay Hollman, Thomas Ischinger, Fred Aueron, and Kathy Galen
- 15 Oral Sustained-Release Nitroglycerin in Chronic Stable Angina: A Multicenter, Double-Blind, Randomized Crossover Trial. Guy M. Berkenboom, John C. Sobolski, and Serge G. Degre
- 18 Prognostic Indicators from Radionuclide Angiography in Medically Treated Patients with Coronary Artery Disease. David B. Pryor, Frank E. Harrell, Jr., Kerry L. Lee, Robert A. Rosati, R. Edward Coleman, Frederick R. Cobb, Robert M. Califf, and Robert H. Jones
- 23 Characteristics and Outcome of Medical Nonadherers in the Veterans Administration Cooperative Study of Coronary Artery Surgery. Prepared by Alfred F. Parisi, Peter Peduzzi, Katherine Detre, Gerald Shugoll, Herbert N. Hultgren, and Timothy Takaro
- 29 Evaluation of Bepridil, a New Antianginal Agent: Clinical and Hemodynamic Alterations During the Treatment of Stable Angina Pectoris. Kenneth A. Narahara, William Shapiro, Irving Weliky, and Janet Park
- 35 Bepridil for Chronic Stable Angina Pectoris: Results of a Prospective Multicenter, Placebo-Controlled, Dose-Ranging Study in 77 Patients. Robert DiBianco, Joseph Alpert, Richard J. Katz, James Spann, Elliott Chesler, Donald P. Ferri, Louis J. Larca, Rebecca Bortz Costello, Joel M. Gore, and Myron J. Eisenman. With the statistical assistance of James L. Cockrell and John F. Paule
- 42 Comparative Value of 2-Dimensional Echocardiography and Radionuclide Angiography for Quantitating Changes in Left Ventricular Performance During Exercise Limited by Angina Pectoris. Michael H. Crawford, Michael A. Petru, K. Wray Aron, Sherman G. Sorensen, and William S. Vance
- 47 Prediction of Late Mortality After Myocardial Infarction from Variables Measured at Different Times During Hospitalization. Erling Birk Madsen, Elizabeth Gilpin, Staffan Ahnve, Hartmut Henning, Martin LeWinter, William Ceretto, William Joswig, Daniel Collins, William Pitt, and John Ross, Jr.
- 55 Angiographic Evidence That Reciprocal ST-Segment Depression During Acute Myocardial Infarction Does Not Indicate Remote Ischemia: Analysis of 23 Patients. David W. Ferguson, Natesa Pandian, J. Michael Kioschos, Melvin L. Marcus, and Carl W. White

ARRHYTHMIAS AND CONDUCTION DISTURBANCES

- 63 Transesophageal Atrial Pacing Threshold: Role of Interelectrode Spacing, Pulse Width and Catheter Insertion Depth. D. Woodrow Benson, Jr., Martha Sanford, Ann Dunnigan, and David G. Benditt
- 68 Out-of-Hospital Management of Cardiac Arrest by Basic Emergency Medical Technicians. B. Hadley Wilson, Harry W. Severance, Jr., Mary P. Raney, Joyce C. Pressley, Ray A. McKinnis, Michael C. Hindman, Michael Smith, and Galen S. Wagner

- 71 Patterns of Human Atrioventricular Nodal Accommodation to a Sudden Acceleration of Atrial Rate. Michael H. Lehmann, Stephen Denker, Rehan Mahmud, and Masood Akhtar
- 77 A Controlled Trial of Propafenone for Treatment of Frequent and Repetitive Ventricular Premature Complexes. David M. Salerno, Gregory Granrud, Patricia Sharkey, Richard Asinger, and Morrison Hodges
- 84 Efficacy of Mexiletine in Chronic Ventricular Arrhythmias Compared with Quinidine: A Single-Blind, Randomized Trial. Jang B. Singh, Amjad M. Rasul, Arvind Shah, Eileen Adams, Athan Flessas, and Stanley L. Kocot
- 88 Effects of Intravenous and Oral Disopyramide on Paroxysmal Atrioventricular Nodal Tachycardia. Pedro Brugada and Hein J. J. Wellens
- 93 Effects of Amiodarone on Supraventricular Tachycardia Involving Bypass Tracts. Paolo Alboni, Narasimhan Shantha, Roberto Pirani, Franco Baggioni, Salvatore Scarfo, Anna Maria Tomasi, and Antonio Masoni
- 99 Alteration of Left Ventricular Performance by Left Bundle Branch Block Simulated with Atrioventricular Sequential Pacing. Joseph Askenazi, Jay H. Alexander, David I. Koenigsberg, Nenad Belic, and Michael Lesch

SYSTEMIC HYPERTENSION

- 105 Enalapril Improves Systemic and Renal Hemodynamics and Allows Regression of Left Ventricular Mass in Essential Hypertension. Francis G. Dunn, Wille Oigman, Hector O. Ventura, Franz H. Messerli, Isaac Kobrin, and Edward D. Frohlich
- 109 Enhancement of Renal Venous Renin Ratios by Intravenous Hydralazine in Renovascular Hypertension. Gurdarshan S. Thind, Pedro M. Montoto, Abbie Johnson, and Elizabeth Amin
- 116 Antihypertensive Efficacy of Once Daily MK-521, A New Nonsulfhydryl Angiotensin-Converting Enzyme Inhibitor. Heschi H. Rotmensch, Peter H. Vlasses, Brian N. Swanson, John D. Irvin, Katherine E. Harris, Deborah G. Merrill, and Roger K. Ferguson
- 120 Abnormal Left Ventricular Filling: An Early Finding in Mild to Moderate Systemic Hypertension. Isao Inouye, Barry Massie, Debra Loge, Nina Topic, Daniel Silverstein, Paul Simpson, and Julio Tubau

CONGESTIVE HEART FAILURE

- 127 Relation Between Hemodynamic and Ventilatory Responses in Determining Exercise Capacity in Severe Congestive Heart Failure. Joseph A. Franciosa, Cheryl L. Leddy, Mary Wilen, and David E. Schwartz

VALVULAR HEART DISEASE

- 135 Programmed Ventricular Stimulation in Mitral Valve Prolapse: Analysis of 36 Patients. Fred Morady, Edward Shen, Anil Bhandari, Alan Schwartz, and Melvin M. Scheinman
- 139 Frequency and Significance of M-Mode Echocardiographic Evidence of Mitral Valve Prolapse in Clinically Isolated Pure Mitral Regurgitation: Analysis of 65 Patients Having Mitral Valve Replacement. Bruce F. Waller, Barry J. Maron, Albert A. Del Negro, John S. Gottdiener, and William C. Roberts

- 148 **Lack of Association Between Dermal Arches and Mitral Valve Prolapse: Relation to Anxiety.** Randi Kramer-Fox, Richard B. Devereux, W. Ted Brown, Neil Hartman, and Robert C. Elston
- 153 **Role of Chordae Tendineae in Mitral Valve Opening: Two-Dimensional Echocardiographic Evidence.** Thomas G. Steffens and Arthur D. Hagan
- 157 **Relation of Level of Total Serum Cholesterol to Amount of Calcific Deposits in Operatively Excised Stenotic Mitral Valves: Analysis of 155 Cases.** Paul J. Day and William C. Roberts
- 160 **Mechanism for Development of Functional Tricuspid Regurgitation Determined by Pulsed Doppler and Two-Dimensional Echocardiography.** Taisei Mikami, Toshihiko Kudo, Nobuko Sakurai, Sanya Sakamoto, Yoshinori Tanabe, and Hisakazu Yasuda
- 164 **Diagnosis of Tricuspid Stenosis by M-Mode and Two-Dimensional Echocardiography.** Rihel Shimada, Akira Takeshita, Motoomi Nakamura, Kouichi Tokunaga, and Tsuneo Hirata
- 169 **Cardiac Conduction Defects in Patients Older than 60 Years with Aortic Stenosis With and Without Mitral Annular Calcium.** Chandra K. Nair, Wilbert S. Aronow, Kevin Stokke, Syed M. Mohiuddin, Wade Thomson, and Michael H. Sketch
- 173 **Amounts of Coronary Arterial Narrowing by Atherosclerotic Plaques in Clinically Isolated, Chronic, Pure Aortic Regurgitation: Analysis of 37 Necropsy Patients Older than 30 Years.** Paul J. Day, Bruce M. McManus, and William C. Roberts
- 176 **Isolated Mitral Valve Replacement with the Hancock Porcine Bioprosthesis in Rheumatic Heart Disease: Analysis of 213 Operative Survivors Followed Up 4.5 to 8.5 Years.** Ignacio Gallo, Blanca Ruiz, and Carlos G. Durán
- 182 **Influence of Length of Aortic Occlusion with Cold Potassium Cardioplegia on Early and Late Mortality in Cardiac Valve Replacement.** Syed T. Raza, Thomas Z. Lajos, Joginder Bhayana, Arthur B. Lee, Jr., A. Norman Lewin, Betsy Gehring, Norma Puzio, and George Schimert

CARDIOMYOPATHY

- 187 **Echocardiographic Analysis of Ventricular Septal Dynamics in Hypertrophic Cardiomyopathy and Other Diseases.** Elisabetta Ciró, Stefania Malone, Anna Giunta, and Barry J. Maron

CONGENITAL HEART DISEASE

- 194 **Percutaneous Balloon Aortic Valvuloplasty: Results in 23 Patients.** Zuhdi Lababidi, Jiunn-Ren Wu, and Joseph T. Walls
- 198 **Transient Atrioventricular Block After Open-Heart Surgery for Congenital Heart Disease.** Rick A. Nishimura, Mark J. Callahan, David R. Holmes, Jr., Bernard J. Gersh, David J. Driscoll, Jane M. Trusty, Gordon K. Danielson, and Dwight C. McGoon
- 202 **Postoperative Assessment of Porcine-Valved Right Ventricular-Pulmonary Artery Conduits.** Kiara A. Vergesslich, Welton M. Gersony, Carl N. Steeg, Allan J. Hordof, Frederick O. Bowman, Jr., James R. Malm, and Ehud Krongrad
- 206 **Two-Dimensional Contrast Echocardiography with Carbon Dioxide in the Detection of Congenital Cardiac Shunts.** Simón Muñoz, Carmen Berti, Cecilia Pulido, and Pablo Blanco
- 211 **Measurement of Left Ventricular Ejection Fraction in Pediatric Patients Using the Nuclear Stethoscope.** Robert L. Spicer, Mark Rabinovitch, Amnon Rosenthal, and Bertram Pitt

- 215 **Assessment of Electrocardiographic Criteria for Left Atrial Enlargement in Childhood.** Jeffrey Maack and Ehud Krongrad

MISCELLANEOUS TOPICS

- 218 **Two-Dimensional Echocardiographic Determination of Aortic and Pulmonary Artery Sizes from Infancy to Adulthood in Normal Subjects.** A. Rebecca Snider, Marlene A. Enderlein, David F. Teitel, and Richard P. Juster

THERAPY

- 225 **Possible Interactions of Indomethacin and Nitrates in Angina Pectoris.** Maurice McGregor and Gordon L. Crellenstein

METHODS

- 228 **Comparative Effects of Ionic and Nonionic Contrast Materials on Indexes of Isovolumic Contraction and Relaxation in Humans.** G. B. John Mancini, J. Edwin Atwood, Valmik Bhargava, Robert A. Slutsky, Maleah Grover, and Charles B. Higgins
- 234 **Determination of Cardiac Output by Transcutaneous Continuous-Wave Ultrasonic Doppler Computer.** P. Anthony Chandraratna, Michele Nanna, Charles McKay, Ananda Nimalasuriya, Robert Swinney, Uri Elkayam, and Shahbudin H. Rahimtoola
- 238 **Left Ventricular Dysfunction Discriminated Noninvasively Beat by Beat.** Aaron G. Dinaburg and Barry R. Zuckerman

CARDIOVASCULAR PHARMACOLOGY

- 243 **Myocardial Depression by Anesthetic Agents (Halothane, Enflurane and Nitrous Oxide): Quantitation Based on End-Systolic Pressure-Dimension Relations.** Peter Van Trigt, Charles C. Christian, Lennart Fagraeus, Thomas L. Spray, Robert B. Peyton, Gary L. Pellom, and Andrew S. Wechsler

EDITORIALS

- 248 **Clinical Importance of Metabolites of Antiarrhythmic Drugs.** Robert E. Kates, Raymond L. Woosley, and Donald C. Harrison
- 252 **Practical Diagnosis of Coronary Artery Disease: A Bayes' Theorem Nomogram to Correlate Clinical Data with Noninvasive Exercise Tests.** Randolph E. Patterson, Calvin Eng, and Steven F. Horowitz
- 257 **Doppler Echocardiography Measurement of Cardiac Output: Comparison with a Non-Golden Standard.** Allan H. Schuster and Navin C. Nanda

POINT OF VIEW

- 260 **The Case for Exercise.** George A. Sheehan

EXPERIMENTAL STUDIES

- 269 Hemodynamic Effects of Continuous Abdominal Binding During Cardiac Arrest and Resuscitation. James T. Niemann, John P. Rosborough, Steven Ung, and J. Michael Criley
- 275 Effects of Timolol and Propranolol on Inducible Sustained Ventricular Tachyarrhythmias in Dogs with Subacute Myocardial Infarction. Eli S. Gang, J. Thomas Bigger, Jr., and Elizabeth W. Uhl
- 282 Use of Computerized Tomography to Assess Myocardial Infarct Size and Ventricular Function in Dogs During Acute Coronary Occlusion and Reperfusion. G. B. John Mancini, Wallace W. Peck, Robert A. Slutsky, John Ross, Jr., and Charles B. Higgins
- 290 Acute and Chronic Complications of Laser Angioplasty: Vascular Wall Damage and Formation of Aneurysms in the Atherosclerotic Rabbit. Garrett Lee, Richard M. Ikeda, Jerold H. Theis, Ming C. Chan, Daniel Stobbe, Claire Ogata, Arnold Kumagal, and Dean T. Mason
- 294 Relation Between Radionuclide Angiographic Regional Ejection Fraction and Left Ventricular Regional Ischemia in Awake Dogs. Ricky M. Schneider, Kenneth B. Roberts, Kenneth G. Morris, James A. Stanfield, and Frederick R. Cobb
- 303 Effects of Nifedipine on Triggered Activity in 1-Day-Old Myocardial Infarction Dogs. William B. Gough, Robert H. Zeller, and Nabil El-Sherif
- 307 Mechanism of Phase 1a and 1b Early Ventricular Arrhythmias During Acute Myocardial Ischemia in the Dog. Douglas C. Russell, Jan S. Lawrie, Rudolph A. Riemersma, and Michael F. Oliver
- 313 Mechanism of Caffeine-Induced Arrhythmias in Canine Cardiac Purkinje Fibers. Philip Paspas and Mario Vassalle
- 320 Histologic and Ultrastructural Studies on the Myocardium in Spontaneously Diabetic KK Mice: A New Animal Model of Cardiomyopathy. Kazuto Saito, Seiji Nishi, Tomoyoshi Kashima, and Hiromitsu Tanaka
- 324 Effect of Conotruncal Constriction on Aortic-Mitral Valve Continuity in the Stage 18, 21 and 24 Chick Embryo. Edward B. Clark, Norman Hu, and Glenn C. Rosenquist

THE AJC 25 YEARS AGO

- 329 The AJC in January 1959. William C. Roberts

BRIEF REPORTS

- 329 Flecainide Toxicity. Carl Spivack, Sheryl Gottlieb, Dennis S. Miura, and John C. Somberg
- 330 Prevalence and Significance of False Tendons in the Left Ventricle as Determined by Echocardiography. Zvi Vered, Richard S. Meltzer, Patricia Benjamin, Michael Motro, and Henry N. Neufeld
- 332 Mild Ebstein's Anomaly Associated with Supraventricular Tachycardia and Sudden Death: Clinicomorphologic Features in 3 Patients. Lino Rossi and Gaetano Thiene
- 334 Accelerated Systemic Hypertension After Cardiac Transplantation—Possible Vascular Alpha-Receptor Hypersensitivity. S. George Carruthers, Edward G. Webster, William J. Kostuk, and F. Neil McKenzie
- 335 Entrainment of Ventricular Tachycardia. Kelley P. Anderson, Charles D. Swerdlow, and Jay W. Mason
- 340 Arterial Complications of Attempted Swan-Ganz Insertion. Gary M. Silver, Sharon A. Bogarty, Roger M. Hayashi, Newell E. Wood, Francis L. Stutzman, and Steven G. Nunley

- 341 Percutaneous Transluminal Coronary Angioplasty for Stenosis of the Ostium of the Right Coronary Artery After Irradiation for Hodgkin's Disease. Fred K. Nekhjavani, Shahriar Yazdanfar, and Andrew Friedman
- 342 Congenital Diverticula of the Left and Right Ventricles: 3 Cases. Pascal Nicod, W. Pennock Laird, Brian G. Firth, Laurent Nicod, and David Fixler
- 344 Coronary Artery Aneurysm Complicating Bypass Tract Surgery for the Wolff-Parkinson-White Syndrome. John W. Shuck, Ira S. Cohen, David J. Cohen, and Frederick C. Lough
- 345 Paradoxical Angina After Nifedipine: Angiographic Documentation. Peter Schanzenbacher, Peter Deeg, Gerhart Liebau, and Kurt Kochsiek
- 347 Pulmonary Artery Compression by a Bronchogenic Cyst Simulating Congenital Pulmonary Artery Stenosis. William J. Watts, Harold H. Rotman, and Gregg A. Patten
- 348 Coexistence of Ductal and Systemic Pulmonary Arterial Supply in Pulmonary Atrials with Ventricular Septal Defect. Carla Frescura, Enrico Talenti, Piero A. Pellegrino, Alessandro Mazzucco, Giuseppe Faggian, and Gaetano Thiene
- 350 Balloon Coarctation Angioplasty in an Adult. Zuhdi Lababidi, Niall Madigan, Jiunn-Ren Wu, and Thomas J. Murphy
- 351 Inter coronary Continuity: An Anatomic Basis for Bidirectional Coronary Blood Flow Distinct from Coronary Collaterals. Roberta Fortin Donaldson and Jeffrey M. Isner
- 352 Catheter-Induced Nonproximal Coronary Artery Spasm. Robert E. Schatz and Samuel Butman
- 354 Diffuse or Segmental Narrowing (Spasm) of the Coronary Arteries During Smoking Demonstrated on Angiography. Joseph Maouad, Francisco Fernandez, Andre Barrillon, Alain Gerbaux, and Jean Gay
- 356 Successful Recanalization of a Left Main Coronary Artery Occlusion. Rainer von Essen, Heinz Lambert, Wolfgang Schmidt, Jörg Rustige, Rainer Uebis, and Sven Effert
- 357 Ebstein's Anomaly and Pregnancy. L. Anthony Waickman, David J. Skorton, Michael W. Varner, Dorothy A. Ehmke, and Clifford P. Goplerud
- 358 Extracardiac Accumulation of Thallium-201 in Pulmonary Carcinoma. Bruno E. Basara, Robert J. Wallner, A-Hamid Hakki, and Abdulmassih S. Iskandrian
- 359 Discrepancy Between the QRS Scoring System and Left Ventricular Ejection Fraction After Surgical or Medical Revascularization During Acute Myocardial Infarction. Pasquale F. Nestico, Nicholas L. DePace, Joel Morganroth, Demetrios Kimbiris, Ami Iskandrian, Harold Kay, and Charles Bemis
- 361 Significance of an Apparent Short Return Cycle in the Mechanism of Supraventricular Tachycardia. Peter A. Barrett, Leo Schamroth, and Brian J. Kelly
- 363 Coronary Artery Spasm Superimposed on Coronary Artery Dissection. Francisco A. Tortoledo, Nadim M. Zacca, and Robert A. Chahine
- 365 Utilization of an Accessory Pathway as the Anterograde Limb During the Permanent Form of Junctional Reciprocating Tachycardia. Thomas Guarneri, Will C. Sealy, Lawrence D. German, and John J. Gallagher
- 368 Double His Deflections Caused by Intra-Hisian Conduction Disturbance with Longitudinal Dissociation. Takakazu Katoh, Masao Nishimura, Yasuhiro Tsuji, and Yoshio Watanabe
- 370 Bacterial Associated Porcine Heterograft Heart Valve Calcification. James P. Knight, Jacqueline A. Torelli, and Robin E. Hunter

- 372 **Isolated Right Ventricular Tamponade After Pericarditis from Acute Myocardial Infarction.** Joel M. Gore, Charles I. Haffajee, John C. Love, and James E. Dalen
- 373 **Pseudomalfuction of Pacemaker due to a Defective Electrocardiograph.** Nayab Ali and Satish Bhatia
- 374 **Echocardiographic Detection of Free-Floating Left Atrial Thrombus.** Steven W. Tabak and Gerald Maurer
- 375 **Intermittent Ambulatory Dobutamine Infusions for Patients Awaiting Cardiac Transplantation.** John McB. Hodgson, Michael Aja, and Richard P. Sorkin
- 376 **Accelerated Constrictive Pericarditis in Procainamide-Induced Systemic Lupus Erythematosus.** Clifford A. Browning, Richard L. Bishop, R. Jeffrey Heilpern, Jang B. Singh, and David H. Spodick
- 377 **Obstructive Hypertrophic Cardiomyopathy Associated with Minimal Left Ventricular Hypertrophy.** Barry J. Maron, Stephen E. Epstein, Robert O. Bonow, Martin K. Wyngarden, and Yvonne E. Wesley
- 379 **Two-Dimensional Echocardiographic Diagnosis of Separate Myxomas of Both the Left Atrium and Left Ventricle.** Richard Abramowitz, Joseph F. Majdan, Louis F. Plzak, and Bruce C. Berger
- 380 **Negative Myocardial Technetium-99m Pyrophosphate Scintigraphy in Amyloid Heart Disease Associated with Type AA Systemic Amyloidosis.** Hannu Leinonen, Karl-Johan Tötterman, Tapio Korppi-Tommola, and Ossi Korhola
- 381 **Infected Cardiac Myxoma.** Thomas J. Quinn, Michele A. Corlini, and Alan A. Harris
- 383 **Intravenous Digital Subtraction Angiography to Assess Aneurysms of the Ventricular and Atrial Septum Pre- and Postoperatively.** John Yiannikas, Douglas S. Moodle, Richard Sterba, and Carl C. Gill
- 385 **Infective Endocarditis Involving a Presumably Normal Pulmonic Valve.** Nicholas L. DePace, Abdulmassih S. Iskandrian, Joel Morganorth, John Ross, Steven Mattleman, and Pasquale F. Nestico
- 387 **Two-Dimensional Echocardiographic Evaluation of Tricuspid Hypoplasia in Pulmonary Atresia.** Jose L. Andrade, Walter Serino, Marc de Leval, and Jane Somerville
- 388 **Occlusion Secundum Atrial Septal Defect-Survival for 87 and 94 Years.** Joseph K. Perloff
- 390 **Repolarization Alternans Associated with Alcoholism and Hypomagnesemia.** C. V. R. Reddy, Joshua P. Klok, Rahman G. Khan, and Nabil El-Sherif
- 391 **Ultrasonic Recognition of Aortic Valve Atresia in Utero.** Norman H. Silverman, Marlene A. Enderlein, and Mitchell S. Golbus
- 392 **Recognition of Coronary Arterial Fistula by Doppler 2-Dimensional Echocardiography.** Chin C. Chen, Betau Hwang, Ming C. Hsiung, Benjamin N. Chiang, Laura C. Meng, Dan J. Wang, and Shih P. Wang
- 395 **A New Nonsurgical Technique for Untying Tight Knots in Flow-Directed Balloon Catheters.** Jean G. Dumesnil and Guy Proulx
- 396 **Two-Dimensional and Pulsed Doppler Echocardiographic Diagnosis of an Acquired Left Ventricular-Right Atrial Communication.** Steven W. Cross, Kirban B. Sagar, and Walter J. H. Paulsen
- 398 **FROM THE EDITOR**

CONTENTS: VOLUME 53 • NUMBER 3

JANUARY 27, 1984

SYMPOSIUM ON FIRST-LINE THERAPY FOR HYPERTENSION: CHANGING DIRECTIONS

Norman M. Kaplan, MD, Guest Editor

- 1A **Introduction.** Norman Kaplan
- 2A **Therapy of Mild Hypertension: An Overview.** Norman Kaplan
- 9A **Diuretic Therapy for Mild Hypertension: The "Real" Cost of Treatment.** David A. McCarron
- 13A **Beta-Adrenergic Receptor Blocking Drugs in Hypertension. Special Reference to Their Use as Initial Therapy.** Priscilla Kincaid-Smith
- 17A **Results From the Multiple Risk Factor Intervention Trial and the Medical Research Council Trial: Implications for Hypertension Therapy.** Norman L. Lasser
- 27A **Selective Alpha₁-Adrenergic Antagonists: Therapeutically Relevant Antihypertensive Agents.** Robert M. Graham
- 32A **Effects of Prazosin on Serum Lipids in Patients with Essential Hypertension: A Review of the Findings Presented at the Satellite Symposium on Coronary Heart Disease: Hypertension and Other Risk Factors, Milan, 1983.** Jerome Lowenstein
- 35A **Monootherapy in Mild to Moderate Hypertension: Comparison of Hydrochlorothiazide, Propranolol, and Prazosin.** Isao Inouye, Barry Massie, Neal Benowitz, Paul Simpson, Debra Loge, and Nina Topic
- 40A **Prazosin as Initial Antihypertensive Therapy: Correlates of Sympathetic Function.** Gordon Guthrie, Jr., Sue H. Koenig, and Theodore A. Kotchen
- 43A **Cardiovascular Consequences of Primary Antihypertensive Therapy with Prazosin Hydrochloride.** Stephen C. Scharf, Hyo-Bok Lee, John P. Wexler, and M. Donald Blautox
- 48A **A Comparison of Prazosin Versus Nadolol in Combination with a Diuretic.** Ronald Okun and Jeffrey Kraut
- 52A **Effects of Prazosin and Propranolol on Blood Pressure and Plasma Lipids in Patients Undergoing Chronic Hemodialysis.** Victor N. Meltzer, Andrew P. Goldberg, Carol A. Tindira, Anna D. Naumovich, and Herschel R. Harter
- 58A **Treatment of Hypertension in Diabetic Men: Problems with Sexual Dysfunction.** Loren G. Lipson
- 65A **Comparison of Blood Pressure, Plasma Lipid and Cardiac Performance Responses to Prazosin Versus Propranolol in Thiazide-Treated Hypertensive Patients.** Robert Misson, Terry Merkel, and Ralph E. Cutler
- 69A **Prazosin Versus Propranolol Plus Prazosin: A Comparison in Diuretic-Treated Hypertensive Patients.** Mahend S. Kochar, John H. Kalbfleisch, Samuel S. Blumenthal, and William J. Maierhofer

CORONARY HEART DISEASE

- 399 **Increased Frequency of Coronary Heart Disease in Relatives of Wives of Myocardial Infarct Survivors: Assortative Mating for Lifestyle and Risk Factors?** Leo P. ten Kate, Helge Boman, Stephen P. Daiger, and Arno G. Motulsky
- 404 **A Randomized, Angiographically Controlled Trial of Intracoronary Streptokinase in Acute Myocardial Infarction.** Roy H. Leiboff, Richard J. Katz, Alan G. Wasserman, George B. Bren, Harry Schwartz, P. Jacob Varghese, and Allan M. Ross
- 408 **Prognosis After Recovery from First Acute Myocardial Infarction: Determinants of Reinfarction and Sudden Death.** Robin M. Norris, Peter F. Barnaby, Peter W. T. Brandt, Grayson G. Geary, Ralph M. L. Whitlock, Christopher J. Wild, and Brian G. Barratt-Boyes
- 414 **Early Right Atrial Pacing After Myocardial Infarction. I. Comparison with Early Treadmill Testing.** Dan Tzivoni, Shmuel Gottlieb, Andre Keren, Jesaia Benhorin, Adrian Chenzbraun, Ron Waksman, and Shlomo Stern
- 418 **Early Right Atrial Pacing After Myocardial Infarction. II. Results in 77 Patients with PredischARGE Angina Pectoris, Congestive Heart Failure, or Age Older Than 70 Years.** Dan Tzivoni, Shmuel Gottlieb, Andre Keren, Jesaia Benhorin, Adrian Chenzbraun, Jacob Klein, and Shlomo Stern
- 421 **Comparison of Left Ventricular Function and Infarct Size in Patients With and Without Persistently Positive Technetium-99m Pyrophosphate Myocardial Scintigrams After Myocardial Infarction: Analysis of 357 Patients.** Charles H. Croft, Robert E. Rude, Samuel E. Lewis, Robert W. Parkey, W. Kenneth Poole, Corette Parker, Norma Fox, Robert Roberts, H. William Strauss, Lewis J. Thomas, Daniel S. Raabe, Jr., Burton E. Sobel, Herman K. Gold, Peter H. Stone, Eugene Braunwald, James T. Willerson, and the MILIS Study Group
- 429 **Prognostic Value of PredischARGE 2-Dimensional Echocardiogram After Acute Myocardial Infarction.** Rick A. Nishimura, Guy S. Reeder, Fletcher A. Miller, Jr., Duane M. Ilstrup, Clarence Shub, James B. Seward, and Abdul J. Tajik
- 433 **Peri-infarction Zone at Risk During the First 5 Days After an Acute Transmural Myocardial Infarction: Electrocardiographic Evidence.** Jaime Figueras, Juan Cinca, Laura Santana, and Jorge Rius
- 439 **Antianginal Effects of Corwin, a New Beta-Adrenoceptor Partial Agonist.** Jean-Marie R. Detry, Patrick M. Decoster, Jean-Jacques Buy, Michel F. Rousseau, and Lucien A. Brasseur
- 444 **Five-Year Effect of Medical and Surgical Therapy on Resting Left Ventricular Function in Stable Angina: Veterans Administration Cooperative Study.** Katherine M. Detre, Peter Peduzzi, Karl E. Hammermeister, Marvin L. Murphy, Herbert N. Hultgren, Timothy Takaro, and the participants of the Veterans Administration Cooperative Study for Surgery for Coronary Arterial Occlusive Disease
- 451 **Hemodynamic Effects of Nifedipine During Upright Exercise in Stable Angina Pectoris and Either Normal or Severely Impaired Left Ventricular Function.** Gregory I. C. Nelson, Bernard Silke, Ramesh C. Ahuja, Satya P. Verma, Musharraf Hussain, and Stanley H. Taylor
- 456 **Effects of Atrial Pacing on Global and Regional Left Ventricular Function in Coronary Heart Disease Assessed by Digital Intravenous Ventriculography.** G. B. John Mancini, Kirk L. Peterson, Gabriel Gregoratos, and Charles B. Higgins. *With the technical assistance of Ellen Einsidler*
- 462 **Prevalence of High-Risk Thallium-201 Scintigraphic Findings in Left Main Coronary Artery Stenosis: Comparison with Patients with Multiple- and Single-Vessel Coronary Artery Disease.** Thomas W. Nygaard, Robert S. Gibson, James M. Ryan, Joseph A. Gascho, Denny D. Watson, and George A. Beller
- 470 **Significance of Increased Lung Thallium-201 Activity on Serial Cardiac Images After Dipyridamole Treatment in Coronary Heart Disease.** Robert D. Okada, Yu-Hua Dai, Charles A. Boucher, and Gerald M. Pohost
- 476 **Effect of Tyramine on Myocardial Catecholamine Release in Coronary Heart Disease.** Mervyn B. Forman, David Robertson, Michael Goldberg, Donna Bostick, Howard Uderman, James M. Perry, and Rose Marie Robertson
- 481 **Association of Acute Respiratory Symptoms with Onset of Acute Myocardial Infarction: Prospective Investigation of 150 Consecutive Patients and Matched Control Patients.** David H. Spodick, Athan P. Flessas, and Mary M. Johnson
- 483 **Location of Myocardial Necrosis as an Independent Determinant of Left Ventricular Performance: Analysis of 96 Patients.** Robert Fox, A-Hamid Hakki, Abdulmassih S. Iskandrian, and Sally Kane
- 487 **Cardiorespiratory Effects of Isosorbide Dinitrate and Nifedipine in Combination with Nadolol: A Double-Blind Comparative Study of Beneficial and Adverse Antianginal Drug Interactions.** Venkat G. Tirilapur and M. Afzal Mir
- 493 **Comparison of the Multivariate Analysis and CADENZA Systems for Determination of the Probability of Coronary Artery Disease.** Paul S. Greenberg, Myrvin H. Ellestad, and Robert C. Clover
- 497 **Left Ventricular Volumes and Function During Atrial Pacing in Coronary Artery Disease: A Radionuclide Angiographic Study.** Yoseph Rozenman, Avraham T. Weiss, Henry Atlan, and Mervyn S. Gotsman

ARRHYTHMIAS AND CONDUCTION DISTURBANCES

- 503 **Pacing Threshold Changes After Transvenous Catheter Countershock.** Raymond Yee, Douglas L. Jones, and George J. Klein
- 508 **Facilitation of Ventricular Tachycardia Induction with Abrupt Changes in Ventricular Cycle Length.** Stephen Denker, Michael Lehmann, Rehan Mahmud, Carol Gilbert, and Masood Akhtar
- 516 **Clinical Efficacy and Electrophysiology of Imipramine for Ventricular Tachycardia.** Stuart J. Connolly, L. Brent Mitchell, Charles D. Swerdlow, Jay W. Mason, and Roger A. Winkle
- 522 **Pirmenol for Control of Ventricular Arrhythmias: Oral Dose-Ranging and Short-Term Maintenance Study.** Jeffrey L. Anderson, Joan R. Lutz, and Jean M. Nappi
- 528 **Magnesium Therapy for Torsades de Pointes.** Dan Tzivoni, Andre Keren, Amos M. Cohen, Hanan Loebel, Izhar Zahavi, Adrian Chenzbraun, and Shlomo Stern
- 531 **Management of Recurrent Ventricular Tachycardia: Economic Impact of Therapeutic Alternatives.** Diane Ferguson, Sanjeev Saksena, Estelle Greenberg, and William Craellius
- 537 **Noninvasive Evaluation of Pacemaker Circus Movement Tachycardias.** Karel den Dulk, Fred W. Lindemans, and Hein J. J. Wellens
- 544 **Pharmacodynamics of the Initiation of Antiarrhythmic Therapy with Lorcanide.** Roger A. Winkle, Deborah L. Keefe, Inez Rodriguez, and Robert E. Kates

VALVULAR HEART DISEASE

- 552 **Adult Human Valve Dimensions and Their Surgical Significance.** Steve Westaby, Robert B. Karp, Eugene H. Blackstone, and Sanford P. Bishop
- 557 **Frequency Spectra of the First Heart Sound and of the Aortic Component of the Second Heart Sound in Patients with De-generated Porcine Bioprosthetic Valves.** Paul D. Stein, Hani N. Sabbah, Jeffrey B. Lakier, Stephen R. Kemp, and Donald J. Magilligan, Jr.
- 562 **Vigorous Physical Training After Aortic Valve Replacement: Analysis of 10 Patients.** Fernand Landry, Colette Habel, Denis Desaulniers, Gilles R. Dagenais, André Moisan, and Léonard Côté

METHODS

- 567 **Hemodynamic Correlates for Timing Intervals, Ejection Rate and Filling Rate Derived from the Radionuclide Angiographic Volume Curve.** David J. Magorien, Phillip Shaffer, Charles Bush, Raymond D. Magorien, Albert J. Kolibash, Donald V. Unverferth, and Thomas M. Bashore
- 572 **Fetal Doppler Echocardiography: Methods and Characterization of Normal and Abnormal Hemodynamics.** Debabrata Maulik, Navin C. Nanda, and Vasant D. Saini
- 579 **Evaluation of Size and Dynamics of the Inferior Vena Cava as an Index of Right-Sided Cardiac Function.** Fidela LL. Moreno, Arthur D. Hagan, John R. Holmen, T. Allan Pryor, Richard D. Strickland, and C. Hilmon Castle
- 586 **Augmentation of Atrial Contribution to Left Ventricular Inflow with Aging as Assessed by Intracardiac Doppler Flowmetry.** Kunio Miyatake, Mitsunori Okamoto, Naokazu Kinoshita, Mafumi Owa, Izuru Nakasone, Hiroshi Sakakibara, and Yasuhiro Ni-mura
- 590 **Effects of Heart Rate Changes on Left Ventricular Volume and Ejection Fraction: A Two-Dimensional Echocardiographic Study.** Raimund Erbel, Peter Schweizer, Winfried Krebs, Hans-Jörg Langen, Jürgen Meyer, and Sven Effert

EXPERIMENTAL STUDIES

- 599 **Regional Differences in Left Ventricular Response to Atrial Pacing in the Dog: Mapping of Segmental Function by Two-Dimensional Echocardiography.** Shuji Kondo, Samuel Meerbaum, Chuwa Tei, Eliot Corday, Keicho Shimoura, Tatsuo Sakamaki, Jo Ann Prause, and Pravin M. Shah
- 604 **Morphologic and Functional Effects of Piroxicam on Myocardial Scar Formation After Coronary Occlusion in Dogs.** Haim Hammerman, Kevin J. Aiker, Frederick J. Schoen, and Robert A. Kloner
- 608 **Reduction of Myocardial Infarct Size by a Fluorocarbon-Oxygenated Perfusate.** Philippe Menasché, Michel Fauchet, Anne Lavergne, Pierre Commin, Christiane Masquet, Paco Lorente, Pierre Birkui, Robert P. Geyer, and Armand Piwnica
- 614 **Role of the Renin-Angiotensin System in the Development of Congestive Heart Failure in the Dog as Assessed by Chronic Converting-Enzyme Blockade.** Günter A. J. Riegger, Gerhart Liebau, Matthias Holzschuh, Dorothea Witkowski, Hansgeorg Steilner, and Kurt Kochsiek

- 619 **Identification of Reproducible Ventricular Tachycardia in a Canine Model.** Gust H. Bardy, William M. Smith, Ross M. Ungersleider, James L. Cox, John J. Gallagher, and Raymond E. Ideker

EDITORIALS

- 626 **Clinical Value of Intracoronary Streptokinase.** Curt D. Furberg

POINT OF VIEW

- 628 **Arrhythmia Versus Dysrhythmia.** Henry J. L. Marriott
- 629 **Noninvasive Techniques: Sailing Under False Colors.** David H. Spodick

THE AJC 25 YEARS AGO

- 630 **The AJC in February 1959.** Edward D. Freis

BRIEF REPORTS

- 631 **Atrioventricular Junctional Rhythm Induced by Atrial Stimulation: A Suspected Clinical Manifestation of "Triggered" Activity.** József Tenczer, László Littmann, and Miklós Rohla
- 632 **Coexistent Arrhythmogenic Right Ventricular Dysplasia and Wolff-Parkinson-White Syndrome.** Michael A. Fraix, Dante E. Manyari, Henry J. Duff, D. George Wyse, Alan V. M. White, and L. Brent Mitchell
- 635 **Uhl's Anomaly (Parchment Right Ventricle): Clinical, Echocardiographic, Radionuclear, Hemodynamic and Angiographic Features in 2 Patients.** John S. Child, Joseph K. Perloff, Richard Francoz, Lawrence A. Yeatman, Eberhard Henze, Heinrich R. Schelbert, and Hillel Laks
- 637 **Intracoronary Thrombolysis for Acute Myocardial Infarction Late After Bypass Surgery: Value of Lead V₄R.** Simon H. Braat, Karel den Dulk, and Hein J. J. Wellens
- 639 **Unusual Features of Arrhythmogenic Right Ventricular Dysplasia.** Fred Morady, Edward N. Shen, and Melvin M. Scheinman
- 640 **Ebstein's Anomaly of the Tricuspid Valve in Persistent Common Atrioventricular Canal.** Robert M. Roach, Rajendra Tandon, James H. Moller, and Jesse E. Edwards
- 642 **Evidence of Remnant Recipient Atria Producing Mechanical Atrial Systole After Heart Transplantation.** Arthur J. Labovitz, Robert D. Wiens, George A. Williams, Jesus E. Val-Mejias, Robert Redd, and Harold L. Kennedy
- 644 **Obstructive Hypertrophic Cardiomyopathy with Left-Sided Cardiac Failure: Improvement After Verapamil Treatment.** Michael Eldar, Hanoah Hod, Alexander Battler, Zeev Rotstein, Shlomo Feldman, Babeth Rabinowitz, and Henry N. Neufeld
- 645 **Narrow-Based Left Ventricular Thrombus.** Kenneth M. Kessler, Robert P. Cotler, Martin S. Bilsker, and Robert J. Myerburg
- 646 **Atrial Level Right-to-Left Shunt Abolished by Relief of Pericardial Tamponade.** Theodore D. Fraker, Jr.
- 651 **Letters**

SYMPOSIUM ON FLECAINIDE ACETATE

J. Thomas Bigger, Jr., MD, Guest Editor

- 1B Electrophysiologic Basis for Arrhythmias in Ischemic Heart Disease. Ralph Lazzara and Benjamin J. Scherlag
- 8B Antiarrhythmic Treatment: An Overview. J. Thomas Bigger, Jr.
- 17B Discovery and Development of Flecainide. John M. Hudak, Elden H. Banitt, and Jack R. Schmid
- 21B Discussion I
- 22B Antiarrhythmic and Electrophysiologic Actions of Flecainide in Animal Models. Donald C. Kram, Elden H. Banitt, and Jack R. Schmid
- 26B Electrophysiologic Properties of Flecainide Acetate. N. A. Mark Estes III, Hasan Garan, and Jeremy N. Ruskin
- 30B Electrophysiologic Effects of Flecainide Acetate on Sinus Node Function, Anomalous Atrioventricular Connections, and Pacemaker Thresholds. Kevin J. Hellestrand, Anthony W. Nathan, Rodney S. Bexton, and A. John Camm
- 39B Discussion II
- 41B Metabolism of Flecainide. Gordon J. Conard and Robert E. Ober
- 52B Interaction of Flecainide with Digoxin and Propranolol. George P. Lewis and Jordan L. Holtzman
- 58B Discussion III
- 59B Flecainide Dose-Response Relations in Stable Ventricular Arrhythmias. Raymond L. Woosley, Lyle A. Sidoway, Henry J. Duff, and Dan M. Roden
- 66B Flecainide Versus Quinidine: Results of a Multicenter Trial. Morrison Hodges, David M. Salerno, Gregory Granrud, and the Flecainide-Quinidine Research Group
- 72B A Double-Blind Crossover Comparison of Flecainide Acetate and Disopyramide Phosphate in the Treatment of Ventricular Premature Complexes. John Kjekshus, Jørn Bathen, Otto M. Orning, and Liv Storstein
- 79B Experience with Electrophysiologically Guided Therapy of Ventricular Tachycardia with Flecainide: Summary of Long-Term Follow-Up. Jeffrey L. Anderson
- 87B Discussion IV
- 89B Flecainide: Its Proarrhythmic Effect and Expected Changes on the Surface Electrocardiogram. Joel Morganroth and Leonard N. Horowitz
- 95B Effects of Flecainide on Ventricular Function: Clinical and Experimental Correlations. Martin A. Josephson, Nobuo Ikeda, and Braham N. Singh
- 101B Extracardiac Adverse Effects of Flecainide. Gary D. Gentzkow and Jo Y. Sullivan
- 106B Discussion V
- 108B Evaluation of Flecainide Acetate in the Management of Patients at High Risk of Sudden Cardiac Death. Philip R. Reid, Lawrence S. C. Griffith, Edward V. Platia, and Sarah E. Ord
- 112B A Proposal for the Clinical Use of Flecainide. Jeffrey L. Anderson, James R. Stewart, and Barry J. Crevey
- 120B Discussion VI
- 122B Conference Summary. J. Thomas Bigger, Jr.

CORONARY HEART DISEASE

- 655 Coronary Thrombolysis by Intravenous Streptokinase in Acute Myocardial Infarction: Acute and Follow-Up Studies. James F. Spann, Sol Sherry, Blase A. Carabello, Barry S. Denenberg, Richard H. Mann, William D. McCann, James H. Gault, Richard D. Gentzler, Arthur D. Belber, Alan H. Maurer, and Emmett M. Cooper
- 662 Improvement in Regional and Global Left Ventricular Function after Intracoronary Thrombolysis: Assessment with 2-Dimensional Echocardiography. Yzhar Charuzi, Clain Beeder, Lorraine A. Marshall, Hiroyuki Sasaki, Nancy B. Pack, Ivor Geft, and William Ganz
- 666 Percutaneous Angioplasty of Stenoses of Bypass Grafts or of Bypass Graft Anastomotic Sites. Peter C. Block, Michael J. Cowley, Martin Kaltenbach, Kenneth M. Kent, and John Simpson
- 669 Improved Efficacy of High-Dose Versus Medium- and Low-Dose Diltiazem Therapy for Chronic Stable Angina Pectoris. Mateo Go, Jr. and Milton Hollenberg
- 674 Randomized, Placebo-Controlled Study of the Effect of Verapamil on Exercise Hemodynamics in Coronary Artery Disease. J. Norman Patton, Ronald E. Vlietstra, and Robert L. Frye
- 679 Effects of Bepridil on Exercise Tolerance in Chronic Stable Angina: A Double-Blind, Randomized, Placebo-Controlled, Crossover Trial. James A. Hill, John T. O'Brien, Elizabeth Scott, C. Richard Conti, and Carl J. Pepine
- 684 Randomized Double-Blind Comparison of Gallopamil and Propranolol in Stable Angina Pectoris. Nardev S. Khurmi, Martin J. O'Hara, Michael J. Bowles, V. Bala Subramanian, and Edward B. Rafferty
- 689 A New Digital Electronic Caliper for Measurement of Coronary Arterial Stenosis: Comparison with Visual Estimates and Computer-Assisted Measurements. David P. Scoblionko, B. Greg Brown, Suzanne Mitten, James H. Caldwell, J. Ward Kennedy, Edward L. Bolson, and Harold T. Dodge
- 694 Functional Importance of Coronary Collateral Vessels. Harvey L. Goldberg, Jonathan Goldstein, Jeffrey S. Borer, Jeffrey W. Moses, and Michael B. Collins
- 700 Dose-Response Relation of Antianginal Activity of Isosorbide Dinitrate. Wolfgang U. Schneider, Wulf-Dirk Bussmann, Beate Stahl, and Martin Kaltenbach
- 706 Evaluation of a QRS Scoring System for Estimating Myocardial Infarct Size. Richard M. Ward, Richard D. White, Raymond E. Ideker, Nancy B. Hindman, Daniel R. Alonso, Sanford P. Bishop, Colin M. Bloor, John T. Fallon, Geoffrey J. Gottlieb, Donald B. Hackel, Grover M. Hutchins, Harry R. Phillips, Keith A. Reimer, Steven F. Roark, Satyabhlashi P. Rochlani, William J. Rogers, Wayne K. Ruth, Robert M. Savage, James L. Weiss, Ronald H. Selvester, and Galen S. Wagner
- 715 Insensitivity of the Electrocardiogram in Apical Myocardial Infarction. Benjamin Rothfeld, Jerome L. Fleg, and Sheldon H. Gottlieb

- 718 **Effect of Intravenous Dipyridamole on Regional Coronary Blood Flow with 1-Vessel Coronary Artery Disease: Evidence Against Coronary Steal.** Eugenio Marchant, Augusto D. Pichard, Pablo Casanegra, and Joseph Lindsay

- 722 **Elevated Catecholamines During Cardiac Surgery: Consequences of Reperfusion of the Postarrested Heart.** J. G. Reves, Eva Buttner, Robert B. Karp, Suzanne Oparil, Huey G. McDaniel, and Lloyd R. Smith

ARRHYTHMIAS AND CONDUCTION DISTURBANCES

- 731 **Cardiac and Skeletal Myopathy Associated with Cardiac Dysrhythmias.** Ann Dunnigan, Mary Ella Pierpont, Stephen A. Smith, Galen Brenningstall, David G. Benditt, and D. Woodrow Benson, Jr.

- 738 **Electropharmacology of Nonsustained Ventricular Tachycardia: Effects of Class I Antiarrhythmic Agents, Verapamil and Propranolol.** Alfred E. Buxton, Harvey L. Waxman, Francis E. Marchlinski, and Mark E. Josephson

- 745 **Effect of Moricizine Hydrochloride in Reducing Chronic High-Frequency Ventricular Arrhythmia: Results of a Prospective, Controlled Trial.** Steven N. Singh, Robert DiBianco, John S. Gottdiener, Rick Ginsberg, and Ross D. Fletcher, *With the technical assistance of Wanda L. Johnson, and statistical assistance of James C. Cockrell*

- 751 **Reproducibility and Treatment of Exercise-Induced Ventricular Tachycardia.** Alan Woolfel, James R. Foster, Ross J. Simpson, Jr., and Leonard S. Gettes

- 757 **Combined Verapamil and Propranolol for Supraventricular Tachycardia.** Raymond Yee, Sajad S. Gulamhussein, and George J. Klein

- 764 **Thallium-201 Scintigraphy in Complete Left Bundle Branch Block.** Heinz O. Hirzel, Markus Senn, Karl Nuesch, Claus Buettner, Alfred Pfeiffer, Otto M. Hess, and Hans P. Krayenbuehl

- 770 **Coronary Arteriographic Findings in Symptomatic Right Bundle Branch Block.** Jacob I. Haft, Samuel J. DeMaio, Jr., and Orest Bartoszyk

- 774 **Relation of Ventricular Premature Beats to Underlying Heart Disease.** Eugene F. Uretz, Pablo Denes, Neal Ruggie, Emmanuel Vasilomanolakis, and Joseph V. Messer

SYSTEMIC HYPERTENSION

- 781 **Comparison of Oral MK 421 and Propranolol in Mild to Moderate Essential Hypertension and Their Effects on Arterial and Venous Vessels of the Forearm: Antihypertensive and Vascular Effects of Chronic MK 421 and Propranolol.** Alain Ch. Simon, Jaime A. Levenson, Jean D. Bouthier, Athanasios Benetos, Apostolos Achimastos, Marie Fouchard, Brigitte C. Maarek, and Michel E. Safar

- 787 **Comparative Efficacy and Safety of Lofexidine and Clonidine in Mild to Moderately Severe Systemic Hypertension.** Larry M. Lopez and Jawahar L. Mehta

- 791 **Effect of Acebutolol on Left Ventricular Hemodynamics and Anatomy in Systemic Hypertension.** Bruno Trimarco, Bruno Ricciardelli, Nicola De Luca, Massimo Volpe, Annamaria Veniero, Alberto Cuocolo, and Mario Condorelli

- 797 **Effects of Diuretic Therapy in Low-, Normal- and High-Renin Isolated Systolic Systemic Hypertension.** Andreas P. Niarcho and John H. Laragh

THE AJC 25 YEARS AGO

- 803 **The AJC in March 1959.** Mark E. Josephson

METHODS

- 805 **Exercise Subcostal 2-Dimensional Echocardiography: A New Method of Segmental Wall Motion Analysis.** Leonard E. Ginzton, Richard Conant, Marianne Brizendine, Faye Lee, Ismael Mena, and Michael M. Laks

- 812 **Simultaneous Maximal Exercise Radionuclide Angiography and Thallium Stress Perfusion Imaging.** Kenneth A. Narahara, Ismael Mena, Jean C. Maublant, Marianne Brizendine, and Michael Criley

- 818 **QT/QT₂ Ratio as an Index of Autonomic Tone Changes.** Lorenzo De Caprio, Giuseppe Ferro, Sergio Cuomo, Massimo Volpe, Domenico Artiaco, Nicola De Luca, and Bruno Ricciardelli

- 823 **Sources of Variability in the Radionuclide Angiographic Assessment of Ejection Fraction: A Comparison of First-Pass and Gated Equilibrium Techniques.** Sanjay Kaul, Charles A. Boucher, Robert D. Okada, John B. Newell, H. William Strauss, and Gerald M. Pohost

- 829 **Sensitivity and Specificity of Commonly Used Electrocardiographic Criteria for Left Atrial Enlargement Determined by M-Mode Echocardiography.** Kirubakaran Munuswamy, Martin A. Alpert, Richard H. Martin, Richard B. Whiting, and Norman J. Mechlun

- 833 **The Femoral Venous Approach to Endomyocardial Biopsy: Comparison with Internal Jugular and Transarterial Approaches.** Jeffrey L. Anderson and Hiram W. Marshall, *With the technical assistance of Scott B. Allison*

- 838 **Comparison of Echocardiographic and Necropsy Measurements of Left Ventricular Wall Thickness in Patients with Coronary Artery Disease.** Ravi Prakash and Sandra A. Umali

MISCELLANEOUS TOPICS

- 842 **Frequency of Arrhythmias in Acute Pericarditis Determined by Holter Monitoring.** David H. Spodick

- 848 **Two-Dimensional Echocardiographic Recognition of Complications of Cardiac Invasive Procedures.** Sabino Iliceto, Gianfranco Antonelli, Margherita Sorino, Piero Calabrese, Giuseppina Biasco, and Paolo Rizzon

- 849 **Risk Factors for Aortic Dissection: A Necropsy Study of 161 Cases.** Eric Larson and William D. Edwards

- 856 **Plasma MB Creatine Kinase after Vigorous Exercise in Professional Athletes.** Allan S. Jaffe, Bernard T. Garfinkel, Cynthia S. Ritter, and Burton E. Sobel

- 859 **Clinical Features and Course of Aortitis Syndrome in Japanese Women Older Than 40 Years.** Shigenori Morooka, Yoshimi Saito, Yasunobu Nonaka, Yuichi Gytoku, and Tsuneaki Sugimoto

- 862 **Comparison of 7 English-Language Cardiology Journals for 1983.** William C. Roberts

HISTORICAL STUDIES

- 870 **From Irritable Heart to Mitral Valve Prolapse: The Osier Connection.** Charles F. Wooley

EDITORIALS

- 875 **Quantitative QRS Criteria for Diagnosing and Sizing Myocardial Infarcts.** Tomooki Hinohara, Nancy B. Hindman, Richard D. White, Raymond E. Ideker, and Galen S. Wagner

FROM THE EDITOR on page 729

INSTRUCTIONS TO AUTHORS on page 730

INDEX TO ADVERTISERS on page A32

CONGENITAL HEART DISEASE

- 879 **Effects of Age on Radionuclide Angiographic Detection and Quantitation of Left-to-Right Shunts.** Page A. W. Anderson, Kevin W. Bowyer, and Robert H. Jones
- 884 **Bilateral Ductus Arteriosus (or Remnant): An Analysis of 27 Patients.** Robert M. Freedom, C. A. F. Moes, Andrew Pelech, Jeffrey Smallhorn, Marlene Rabinovitch, Peter M. Olley, William G. Williams, George A. Trusler, and Richard D. Rowe
- 892 **Cervical Origin of the Right Subclavian Artery in Aortic Arch Interruption: Pathogenesis and Significance.** Lynn M. Kutsche and Lodewyk H. S. Van Mierop
- 896 **Two-Dimensional Echocardiography in Discrete Subaortic Stenosis.** Michael Motro, Adam Schneeweiss, Abraham Shem-Tov, Zvi Vered, Julius Hegesh, Henry N. Neufeld, and Shmuel Rath
- 899 **Right Ventricular Contractile Function in Children with Congenital Heart Disease.** Steven M. Yabek, William Berman, Jr., and Terrence Dillon

CARDIOMYOPATHY

- 902 **Significance of Ventricular Arrhythmias in Idiopathic Dilated Cardiomyopathy.** Thomas Meinertz, Thomas Hofmann, Wolfgang Kasper, Norbert Treese, Heinrich Bechtold, Ulrich Stienen, Tiberius Pop, Erz-Rüdiger V. Leitner, Dietrich Andersen, and Jürgen Meyer

CARDIOVASCULAR PHARMACOLOGY

- 906 **Nifedipine and the Conditioning Response.** Daniel J. Duffey, Lawrence D. Horwitz, and Homer L. Brammell
- 912 **Plasma and Red Blood Cell Concentrations of Amlodarene During Chronic Therapy.** James J. Heger, Elizabeth B. Solow, Eric N. Prystowsky, and Douglas P. Zipes
- 918 **Cardiovascular Effects of Coffee and Caffeine.** Thomas L. Whitsett, Carl V. Manion, and H. Dix Christensen

EXPERIMENTAL STUDIES

- 923 **Reduction of Infarct Size Induced by Pressure-Controlled Intermittent Coronary Sinus Occlusion.** Werner Mohl, Dietmar H. Glogar, Harald Mayr, Udo Losert, Heinz Sochor, Othmar Pachinger, Fritz Kalindl, and Ernest Wolner
- 929 **In Vivo Assessment by Computer Tomography of the Natural Progression of Infarct Size, Left Ventricular Muscle Mass and Function After Acute Myocardial Infarction in the Dog.** Wallace W. Peck, G. B. John Mancini, Robert A. Slutsky, Robert F. Matrey, and Charles B. Higgins
- 936 **Nitroglycerin and Nitroprusside Increase Coronary Blood Flow in Dogs by a Mechanism Independent of Prostaglandin Release.** Marel J. Panzenbeck, Arsenio Baez, and Gabor Kaley
- 941 **Heparin Inhibits Bovine Testicular Hyaluronidase Activity in Myocardium of Dogs with Coronary Artery Occlusion.** Robert A. Wolf, Dietmar Glogar, Lee-Yuh Chang, Patricia E. Garrett, George Ertl, John Turnas, Eugene Braunwald, Robert A. Kloner, Michael L. Feldstein, and James E. Muller
- 945 **Platelet Adherence to Bioprosthetic Cardiac Valves.** Donald J. Magilligan, Jr., Choken Oyama, Samuel Klein, Jeanne M. Riddle, and David Smith

BRIEF REPORTS

- 951 **Laterality of Pleural Effusions in Chronic Congestive Heart Failure.** James M. Weiss and David H. Spodick

- 952 **Myocardial Infarction as a Manifestation of Polycythemia in Cyanotic Heart Disease.** Scott B. Yeager and Michael D. Freed
- 953 **Distal Embolization of a Coronary Artery Bypass Graft Atheroma During Percutaneous Transluminal Coronary Angioplasty.** Fred Aueron and Andreas Gruentzig
- 954 **Angiographically Visible Intercoronary Collateral Circulation in the Absence of Obstructive Coronary Artery Disease.** George J. Linsenmeyer, III and John F. Schneider
- 956 **Variant Angina in Siblings with Mild Coronary Artery Disease.** John E. Madias and William H. O'Connor
- 958 **Nonfatal Ajmaline Cardiotoxicity.** Victor Medina-Ravell, Luis Rodriguez-Salas, Ivan J. Mendoza and Agustin Castellanos
- 960 **Concealed Conduction Preventing Anterograde Preexcitation in Wolff-Parkinson-White Syndrome.** Eric N. Prystowsky, Edward L. C. Prichett, and John J. Gallagher
- 961 **Atrioventricular Block and Preexcitation in Hypertrophic Cardiomyopathy.** Paul Touboul, Gilbert Kirkorian, Georges Atallah, Pol Cahen, Claudio De Zuloaga, and Pierre Moleur
- 964 **Rate Acceleration of Ventricular Tachycardia After Precordial Chest Thump.** Ruud Krijne
- 965 **Familial Atrial Standstill and Inexcitability in Childhood.** David E. Ward, Siu Yen Ho, and Elliot A. Shinebourne
- 967 **Complete Heart Block in Reiter's Syndrome.** David Hassel, James Heinsimer, Robert M. Callif, Anthony Benson, John Rice, and Lawrence German
- 969 **Prophylactic Replacement of a Starr-Edwards Model 1000 Aortic Valve Prosthesis in Place for 20 Years.** Stephen C. Vlay and Frank C. Spencer
- 969 **Cardiac Amyloidosis Simulating Hypertrophic Cardiomyopathy.** Steven P. Sedlis, Jeffrey E. Saffitz, Valerie S. Schwob, and Allan S. Jaffe
- 971 **Beside Balloon Atrial Septostomy Using Echocardiographic Monitoring.** Charles A. Bullaboy, Rufus B. Jennings, Jr., and David H. Johnson, *With the technical assistance of Carol W. Fulcher*
- 971 **Quadracuspid Pulmonic Valve.** William Lewis and Carmine Cammarosano
- 972 **Diagnosis of Incompetent Quadracuspid Aortic Valve by Two-Dimensional Echocardiography.** Robert L. Herman, Ira S. Cohen, Kenneth Glaser, and Everett W. Newcomb III
- 973 **Two-Dimensional Echocardiographic Diagnosis of Acquired Right Ventricular Outflow Obstruction Due to External Cardiac Compression.** Ming C. Hsiung, Chin C. Chen, Dan J. Wang, Shyh M. Shieh, and Benjamin N. Chiang
- 974 **Two-Dimensional Echocardiographic Diagnosis of Mediastinal Hematoma Causing Cardiac Tamponade.** Bapineedu Gondi and Navin C. Nanda
- 976 **Intracardiac Goiter: A Cause of Right Ventricular Outflow Obstruction and Successful Operative Therapy.** Huey-Ming Lo, Yung-Zu Tseng, Chuen-Den Tseng, Shu-Hsun Chu, Sou-Ming Chuang, and Teh-Lu Wu
- 978 **Diagnosis of Intracardiac Rhabdomyoma by Two-Dimensional Echocardiography.** Donald R. Fischer, Lee B. Bearman, Sang C. Park, Henry T. Bahnson, Frederick J. Fricker, and Robert A. Mathews
- 980 **Cardiac Involvement in Glycogen Storage Disease III: Morphologic and Biochemical Characterization with Endomyocardial Biopsy.** Lyle J. Olson, Guy S. Reeder, Kenneth L. Noller, William D. Edwards, R. Rodney Howell, and Virginia V. Michels

- 981 **Echocardiographic Demonstration of an Asymptomatic Patient with Left Ventricular Fibroma.** Katsuhito Takahashi, Yoichi Imamura, Takaaki Ochi, Mareomi Hamada, Taketoshi Ito, Kunio Hiwada, and Tatsuo Kokubu
- 982 **Infantile Cardiomyopathy with Histocytoid Change in Cardiac Muscle Cells: Successful Surgical Intervention and Prolonged Survival.** Christopher G. A. McGregor, Angus Gibson, and Philip Caves
- 983 **Cardiac Involvement by Kaposi's Sarcoma in Acquired Immune Deficiency Syndrome (AIDS).** Marc A. Silver, Abe M. Macher, Cheryl M. Reichert, David L. Levens, Joseph E. Parrillo, Dan L. Longo, and William C. Roberts

- 985 **Pseudodyskinesia of the Left Ventricular Free Wall.** David S. Kayden, Nohory Ariza, Martin S. Bilsker, Martin G. Laighoid, Robert J. Myerburg, and Kenneth M. Kessler
- 987 **FROM THE EDITOR**

APRIL 1, 1984

CORONARY HEART DISEASE

- 991 **ST Elevations in Leads V₁ to V₅ May be Caused by Right Coronary Artery Occlusion and Acute Right Ventricular Infarction.** Ivor L. Geft, Prediman K. Shah, Lois Rodriguez, Sharon Hulse, Jamshid Maddahi, Daniel S. Berman, and William Ganz
- 997 **Association Between Leukocyte Count and the Presence and Extent of Coronary Atherosclerosis as Determined by Coronary Arteriography.** John B. Kostis, Darya Turkevich, and John Sharp
- 1000 **Miscoding of Hospital Discharges as Acute Myocardial Infarction: Implications for Surveillance Programs Aimed at Elucidating Trends in Coronary Artery Disease.** Gemma T. Kennedy, Michael P. Stern, and Michael H. Crawford
- 1003 **Randomized, Placebo-Controlled Evaluation of Lidoflazine in Patients Receiving Beta-Blocker Therapy with Propranolol: Improvement in Anginal Symptoms and Exercise Tolerance with Combined Drug Therapy.** William E. Strauss and Alfred F. Parisi
- 1008 **Blood Velocity in the Right Coronary Artery: Relation to the Distribution of Atherosclerotic Lesions.** Hani N. Sabbah, Fareed Khaja, James F. Brymer, Earl T. Hawkins, and Paul D. Stein

ARRHYTHMIAS AND CONDUCTION DISTURBANCES

- 1013 **Diagnostic Efficacy of 24-Hour Electrocardiographic Monitoring for Syncope.** Thomas C. Gibson and Mark R. Heitzman
- 1018 **Influence of Basic Atrial Rhythm on Intraatrial Conduction of Extrastimuli.** Francisco G. Cosio, Jesús Paylos, Marta Requena, and Juan Fernández-Yáñez
- 1022 **Differential Effects of Sotalol and Metoprolol on Induction of Paroxysmal Supraventricular Tachycardia.** Ioannis Rizos, Jochen Senegas, Rolf Jauernig, Wolfgang Lengfelder, Ellen Czygan, Johannes Brachmann, and Wolfgang Kübler
- 1028 **Relation Between Premature Ventricular Contraction Site of Origin (Defined by Radionuclide Phase Analysis) and Subsequent Left Ventricular Function.** Stephen J. Rolfe, Timothy Rasor, Phillip A. Shaffer, Patricia A. Sanitate, and Thomas M. Bashore
- 1034 **Carotid Sinus Hypersensitivity: Beneficial Effects of Dual-Chamber Pacing.** Niall P. Madigan, Greg C. Flaker, Jack J. Curtis, John Reid, Karl J. Mueller, and Thomas J. Murphy
- 1041 **A Temporary External DDD Pacing Unit.** Philip O. Littleford, Kerry M. Schwartz, and Carl J. Pepine

SYSTEMIC HYPERTENSION

- 1044 **Regression of Left Ventricular Hypertrophy from Systemic Hypertension by Enalapril.** Yoshiyuki Nakashima, Fetnat M. Fouad, and Robert C. Tarazi

CONGESTIVE HEART FAILURE

- 1051 **Positive Inotropic and Vasodilator Effects of MDL 17,043 in Patients with Reduced Left Ventricular Performance.** Michael H. Crawford, Kent L. Richards, Marcis T. Sodums, and Gemma T. Kennedy

VALVULAR HEART DISEASE

- 1054 **Use of Left Ventricular Filling and Ejection Patterns in Assessing Severity of Chronic Mitral and Aortic Regurgitation.** Mary D. Osbakken and Alfred A. Bove
- 1061 **Degeneration in Porcine Bioprosthetic Cardiac Valves: Incidence of Primary Tissue Failures Among 938 Bioprostheses at Risk.** Ignacio Gallo, Blanca Ruiz, Francisco Nistal, and Carlos M. G. Duran
- 1066 **Calcific Degeneration as the Main Cause of Porcine Bioprosthetic Valve Failure.** Aldo Milano, Umberto Bortolotti, Enrico Talenti, Carlo Valfré, Eloisa Arbustini, Maria Luisa Valente, Alessandro Mazzucco, Vincenzo Gallucci, and Gaetano Thiene
- 1071 **Intermittent Mitral Regurgitation Due to Beal Valve Dysfunction: Analysis of 13 Patients with Atrial Fibrillation.** Jerome M. Itzkoff, Edward I. Curtiss, P. S. Reddy, Barry F. Uretsky, and James A. Shaver
- 1075 **Conduction System Abnormalities in Symptomatic Mitral Valve Prolapse: An Electrophysiologic Analysis of 60 Patients.** J. Anthony Ware, Sharon A. Magro, Jerry C. Luck, David E. Mann, Anton P. Nielsen, Kenneth M. Rosen, and Christopher R. C. Wyndham
- 1079 **Ventricular Arrhythmias in Aortic Valve Disease: Analysis of 102 Patients.** Richard C. Klein
- 1084 **Measurement of Aortic Root Size by Biplane Angiography Before Cardiac Valve Replacement.** Jhulan Mukharji, Timothy J. Sloan, Aaron S. Estrera, and Kirk M. Lipscomb

CARDIOMYOPATHY

- 1087 **Patterns of Inheritance in Hypertrophic Cardiomyopathy: Assessment by M-Mode and Two-Dimensional Echocardiography.** Barry J. Maron, Paul F. Nichols III, Linda W. Pickle, Yvonne E. Wesley, and John J. Mulvihill
- 1095 **Recognition of Regional Hypertrophy in Hypertrophic Cardiomyopathy Using Thallium-201 Emission-Computed Tomography: Comparison with Two-Dimensional Echocardiography.** Yukisano Suzuki, Kazunori Kadota, Ryuji Nohara, Shunichi Tamaki, Hirofumi Kambara, Akira Yoshida, Tomoyuki Murakami, Genta Osakada, Chuichi Kawai, Nagara Tamaki, Takao Mukai, and Kanji Torizuka
- 1103 **Relation Between Marked Changes in Left Ventricular Outflow Tract Gradient and Disease Progression in Hypertrophic Cardiomyopathy.** Elisabetta Cioro, Barry J. Maron, Robert O. Bonow, Richard O. Cannon, and Stephen E. Epstein

CONGENITAL HEART DISEASE

- 1110 **Doppler Echocardiographic Prediction of Pulmonary Arterial Hypertension in Congenital Heart Disease.** Demetrio Kosturakis, Stanley J. Goldberg, Hugh D. Allen, and Cleo Loeber
- 1117 **Noninvasive Assessment of Right Ventricular Systolic Pressure in Atrial Septal Defect: Analysis of the End-Systolic Configuration of the Ventricular Septum by Two-Dimensional Echocardiography.** Rihel Shimada, Akira Takeshita, and Motoomi Nakamura
- 1124 **Long-Term Follow-Up in the Unoperated Univentricular Heart.** Douglas S. Moodie, Donald G. Ritter, Abdul J. Tajik, and W. Michael O'Fallon

MISCELLANEOUS TOPICS

- 1129 **Left-Axis Deviation and Adiposity: The United States Health and Nutrition Examination Survey.** Paul M. Zack, Robert D. Wiens, and Harold L. Kennedy
- 1135 **Identification of Patients at High Risk for Complications of Intraaortic Balloon Counterpulsation: A Multivariate Risk Factor Analysis.** Sidney O. Gottlieb, Jeffrey A. Brinker, A. Michael Borkon, Clayton H. Kallman, Alan Potter, Vincent L. Gott, and Kenneth L. Baughman
- 1140 **Reevaluation of Electrocardiographic Criteria for Left, Right and Combined Cardiac Ventricular Hypertrophy.** Marvin L. Murphy, P. Nihal Thenabadu, Neil De Soyza, James E. Doherty, James Meade, Bonnie J. Baker, and James L. White

METHODS

- 1148 **Quantitative Variability in Regional Wall Motion During Serial Left Ventricular Cineangiography: Guidelines for Assessing Changes in Segmental Function with Intervention Studies.** Harold Dash and Roger M. Wint
- 1154 **Use of the Indirect Axillary Pulse Tracing for Noninvasive Determination of Ejection Time, Upstroke Time, and Left Ventricular Wall Stress Throughout Ejection in Infants and Young Children.** Steven D. Colan, Kenneth M. Borow, Debbie MacPherson, and Stephen P. Sanders
- 1159 **Left Ventricular Volumes by Single-Plane Cineangiography: In Vivo Validation of the Kennedy Regression Equation.** L. David Hillis, Michael D. Winniford, Gregory J. Dehmer, and Brian G. Firth
- 1164 **Digital Processing of Contrast Echocardiograms: A New Technique for Measuring Right Ventricular Ejection Fraction.** L. Samuel Wann, Kevin R. Stickels, Virinderjit S. Bamrah, and Charles M. Gross

- 1169 **Audibility of an Artificial Third Heart Sound in Relation to Its Frequency, Amplitude, Delay from the Second Heart Sound and the Experience of the Observer.** Peter Held, Bengt Lindberg, and Karl Swedberg

- 1173 **Transesophageal Two-Dimensional Echocardiography: Comparison of Ultrasonic and Anatomic Sections.** Michael Schüller, Andreas Hinrichs, Wolfgang Thier, Peter Kremer, Sören Schröder, Michael K. Cahalan, and Peter Hanrath, *With the technical assistance of Volker Siglow*

- 1179 **Chronic Percutaneous Pericardial Drainage with Modified Pigtail Catheters in Children.** James E. Lock, John L. Bass, Thomas J. Kulik, and Bradley P. Fuhrman

CARDIOVASCULAR PHARMACOLOGY

- 1183 **Lidocaine Disposition in Obesity.** Darrell R. Abernethy and David J. Greenblatt

EXPERIMENTAL STUDIES

- 1187 **Left Ventricular Dimensions and Function During Exercise in Dogs with Chronic Right Ventricular Pressure Overload.** Frederick R. Badke
- 1194 **Identification of Blood in the Pericardial Cavity in Dogs by Two-Dimensional Echocardiography.** Jose Lopez-Sendon, Miguel A. Garcia-Fernandez, Isabel Coma-Canella, Jorge Silvestre, Enrique de Miguel, and Luis Martin Jadraque

CORONARY HEART DISEASE

- 1209 **Intravenous Streptokinase in Evolving Acute Myocardial Infarction.** William Ganz, Ivor Geft, P. K. Shah, Allan S. Lew, Lois Rodriguez, Teddy Weiss, Jamshid Maddahi, Daniel S. Berman, Yzhar Charuzi, and H. J. C. Swan
- 1217 **Effects of Percutaneous Transluminal Coronary Angioplasty: Intracoronary Thrombolysis with Urokinase in Acute Myocardial Infarction.** Masao Yasuno, Yoshihiko Saito, Moriharu Ishida, Katsuhiko Suzuki, Shigeki Endo, and Masaaki Takahashi
- 1221 **Comparative Value of Maximal Treadmill Testing, Exercise Thallium Myocardial Perfusion Scintigraphy and Exercise Radionuclide Ventriculography for Distinguishing High- and Low-Risk Patients Soon After Acute Myocardial Infarction.** Joseph Hung, Michael L. Goris, Elizabeth Nash, Helena C. Kraemer, and Robert F. DeBusk, *In cooperation with Walter E. Berger III and Henry Lew*

- 1228 **Hemodynamic Effects of Sublingual Nifedipine in Acute Myocardial Infarction.** Gary D. Gordon, Thomas A. Mabin, Sedick Isaacs, Elwyn A. Lloyd, Hans G. Eichler, and Lionel H. Opie

- 1233 **Evaluation of Coronary Collateral Circulation in Conscious Humans.** Robert L. Feldman and Carl J. Pepine

- 1239 **Left Ventricular Function in Patients with Coronary Heart Disease in the Presence or Absence of Angina Pectoris During Exercise Radionuclide Ventriculography.** Abdulmassih S. Iskandrian and A-Hamid Hakki

- 1244 **Detection and Quantification of Previous Myocardial Infarction by Exercise-Redistribution Tomographic Thallium-201 Scintigraphy.** Barry M. Massie, Judith A. Wisneski, Isao K. Inouye, Milton Hollenberg, Edward W. Gertz, and Steven Henderson, *With the technical assistance of Patricia Chu*

- 1250 Stress Scintigraphy Using Single-Photon Emission Computed Tomography in the Evaluation of Coronary Artery Disease.** Ryuji Nohara, Hirofumi Kambara, Yukisano Suzuki, Shunichi Tamaki, Kazunori Kadota, Chuichi Kawai, Nagara Tamaki, and Kanji Torizuka
- 1255 Effects of a Selective Thromboxane Synthetase Inhibitor, Dazoxiben, and of Acetylsalicylic Acid on Myocardial Ischemia in Patients with Coronary Artery Disease.** Erik Thaulow, Jon Dale, and Erik Myhre
- 1259 Relation Between Plasma High-Density Lipoprotein Cholesterol and Sex Hormone Concentrations in Men.** Wanju S. Dai, James P. Gutai, Lewis H. Kuller, Ronald E. LaPorte, Lorita Falvo-Gerard, and Arlene Caggliola

ARRHYTHMIAS AND CONDUCTION DISTURBANCES

- 1264 Effect of Amiodarone on Serum Quinidine and Procainamide Levels.** A. Kim Saal, Jeffrey A. Werner, H. Leon Greene, Gena K. Sears, and Ellen L. Graham
- 1268 Antiarrhythmic and Electrophysiologic Actions of Bethanidine Sulfate in Primary Ventricular Fibrillation or Life-Threatening Ventricular Tachycardia.** David G. Benditt, D. Woodrow Benson, Jr., Ann Dunnigan, Jolene M. Kriett, Marc R. Pritzker, and Marvin B. Bacaner
- 1275 Prognostic Factors in Nonsustained Ventricular Tachycardia.** Alfred E. Buxton, Francis E. Marchlinski, Harvey L. Waxman, Belinda T. Flores, Dennis M. Cassidy, and Mark E. Josephson
- 1280 Polymorphous Ventricular Tachycardia in Acute Myocardial Infarction.** Ehud Grenadier, Gad Alpan, Naftali Maor, Shlomo Keidar, Chen Blinboim, Tamar Margulies, and Avraham Palant
- 1284 Value of Radiotelemetry in a Community Hospital.** Donald J. Lipskis, Karl N. Dannehl, and Mark E. Silverman
- 1288 Periodic Variation in Atrioventricular Conduction Time: Mechanisms of Initiation, Maintenance and Termination of Periods of Long PR Intervals.** Shinji Kinoshita, Takeshi Kawasaki, Seiki Fujiwara, and Katsushi Okimori
- 1292 Effects on Ventricular Function of Disopyramide, Procainamide and Quinidine as Determined by Radionuclide Angiography.** Gerald Wisenberg, Andrew G. Zawadowski, Vernon A. Gebhardt, Frank S. Prato, Michele D. Goddard, Peter M. Nichol, Peter A. Rechnitzer, and Brenda Gryfe-Becker

SYSTEMIC HYPERTENSION

- 1299 Plasma Norepinephrine and Left Ventricular Hypertrophy in Systemic Hypertension.** Luigi Corea, Maurizio Bentivoglio, Paolo Verdecchia, and Mario Motolese
- 1304 Step-Down Treatment of Mild Systemic Hypertension.** Frank A. Finnerty, Jr.

CONGESTIVE HEART FAILURE

- 1308 Impaired Skeletal Muscle Nutritive Flow During Exercise in Patients with Congestive Heart Failure: Role of Cardiac Pump Dysfunction as Determined by the Effect of Dobutamine.** John R. Wilson, Jack L. Martin, and Nancy Ferraro
- 1316 Long-Term Captopril Therapy for Chronic Congestive Heart Failure.** Barry M. Massie, Barry L. Kramer, and Nina Topic
- 1321 Comparison of Hemodynamic Responses to Nifedipine and Nitroprusside in Severe Chronic Congestive Heart Failure.** Uri Elkayam, Laura Weber, Behrooz Torkan, Charles R. McKay, and Shahbudin H. Rahimtoola

CARDIOMYOPATHY

- 1328 HLA A, B and DR Typing in Idiopathic Dilated Cardiomyopathy: A Search for Immune Response Factors.** Jeffrey L. Anderson, John F. Carlsquist, Joan R. Lutz, Charles W. DeWitt, and Elizabeth H. Hammond

- 1331 Echocardiography in Acute Infectious Myocarditis: Relation to Clinical and Electrocardiographic Findings.** Markku S. Nieminen, Juhani Helkila, and Jouko Karjalainen

MISCELLANEOUS TOPICS

- 1339 Electrocardiogram of the Athlete: An Analysis of 289 Professional Football Players.** Gary J. Balady, John B. Cadigan, and Thomas J. Ryan
- 1344 Hemostatic Abnormalities Associated with Prolonged Ventricular Assist Pumping: Analysis of 24 Patients.** Hamid Al-Mondhry, William S. Pierce, Wayne Richenbacher, and Anthony Bull
- 1349 Noninvasive Diagnosis of Pulmonary Arterial Hypertension in Chronic Obstructive Pulmonary Disease: Right Ventricular Ejection Fraction at Rest.** Bruce N. Brent, Donald Mahler, Richard A. Matthay, Harvey J. Berger, and Barry L. Zaret

EXPERIMENTAL STUDIES

- 1354 Nitroprusside Infusion in Experimental Acute Myocardial Infarction with Systemic Hypertension: Effects on Systemic Hemodynamics and Regional Myocardial Blood Flows.** Seinosuke Kawashima, Chang-Seng Liang, J. Frank Richeson, and William B. Hood, Jr.
- 1360 Coronary Blood Flow in Genetic Cardiac Hypertrophy.** Kiminari Kobayashi, Robert C. Tarazi, Walter Lovenberg, and Karel Rakusan
- 1365 Determination of Left Ventricular Mass by Single-Photon Emission Computed Tomography with Thallium-201.** Christopher L. Wolfe, James R. Corbett, Samuel E. Lewis, L. Maximilian Buja, and James T. Willerson
- 1369 In Vitro Verification of Doppler Prediction of Transvalve Pressure Gradient and Orifice Area in Stenosis.** Jay A. Requarth, Stanley J. Goldberg, Susan Dietrich Vasko, and Hugh D. Allen
- 1374 In Vitro Analysis of Boundary Identification Techniques Used in Quantification of Two-Dimensional Echocardiograms.** Donald A. Conetta, Edward A. Geiser, David J. Skorton, Natesa G. Pandian, Richard E. Kerber, and C. Richard Conti
- 1380 Computer-Assisted Edge Detection in Two-Dimensional Echocardiography: Comparison with Anatomic Data.** Steve M. Collins, David J. Skorton, Edward A. Geiser, James A. Nichols, Donald A. Conetta, Natesa G. Pandian, and Richard E. Kerber
- 1388 Modification by the Hancock T6 Process of Calcification of Bioprosthetic Cardiac Valves Implanted in Sheep.** Elosa Arbustini, Michael Jones, Robert D. Moses, Elling E. Eldbo, Raymond J. Carroll, and Victor J. Ferrans
- 1397 Correlates of Reperfusion Ventricular Fibrillation in Dogs.** Sharon L. Hale, Rüdiger Lange, Kevin J. Aiker, and Robert A. Kloner

BRIEF REPORTS

- 1401 Aneurysm of the Atrial Septum as Diagnosed by Echocardiography: Analysis of 11 Patients.** Andrew M. Hauser, Gerald C. Timmis, James R. Stewart, Renato G. Ramos, V. Gangadharan, Douglas C. Westveer, and Seymour Gordon, *With the technical assistance of Patricia Dudlets*
- 1402 Familial Uhl's Anomaly in the Adult.** U. Diggeimann and H. R. Baur
- 1403 Sudden Death During Ambulatory Electrocardiographic Monitoring: Importance of Morphologic Confirmation to Establish Cause of Death.** Dean J. Kerelakes, Fred Morady, Deborah Heath, Tristram Parsons, and Melvin M. Scheinman
- 1405 Atrial Fibrillation Induced by Adenosine Triphosphate.** Bernard Belhassen, Amir Pelleg, and Shlomo Laniado
- 1406 Orthostatic Atrial Tachycardia: Autonomic Influence on Atrial Pacemakers.** Bruce B. Lerman, Eric J. Topol, Edward V. Platia, and Kenneth L. Baughman

- 1408 **Visually Provoked Complete Atrioventricular Block: An Unusual Form of Deglutition Syncope.** Charles E. Drake, Harry E. Rollings, O. Emerson Ham, Jr., Dariush H. Heidary, and Thomas J. Yeh

CONTENTS: VOLUME 53 • NUMBER 11

JUNE 1, 1984

CORONARY HEART DISEASE

- 1489 "Left Main Equivalent" Coronary Artery Disease: Its Clinical Presentation and Prognostic Significance with Nonsurgical Therapy. Robert M. Califf, Martin J. Conley, Victor S. Behar, Frank E. Harrell, Jr., Kerry L. Lee, David B. Pryor, Ray A. McKinnis, and Robert A. Rosati
- 1496 Ventricular Arrhythmias During Coronary Angiography in Patients with Angina Pectoris or Chest Pain Syndromes. Rick A. Nishimura, David R. Holmes, Jr., Thomas M. McFarland, Hugh C. Smith, and Alfred A. Bove
- 1500 Effects of Prostacyclin on Coronary Hemodynamics at Rest and in Response to Cold Pressor Testing in Patients with Angina Pectoris. Peter Ganz, Jorge Gaspar, Wilson S. Colucci, William H. Barry, Gilbert H. Mudge, R. Wayne Alexander
- 1505 Thrombolysis in Acute Myocardial Infarction: Effect of Intravenous Followed by Intracoronary Streptokinase Application on Estimates of Infarct Size. Franz Schwarz, Manfred Hofmann, Gerhard Schuler, Klaus von Olshausen, Rainer Zimmermann, and Wolfgang Kübler
- 1511 Two-Dimensional Echocardiographic Appearance of Left Ventricular Thrombi with Systemic Emboli After Myocardial Infarction. Richard S. Meltzer, Cees A. Visser, Gerard Kan, and Jos Roelandt
- 1514 Low-Dose Colestipol Plus Probucol for Hypercholesterolemia. Carlos A. Dujovne, Steven B. Chernoff, Patricia Krehbiel, Bethany Jackson, Susan DeCoursey, and Harold Taylor
- 1519 Determinants of Arrhythmogenic Ventricular Activity Detected on the Body Surface QRS in Patients with Coronary Artery Disease. Pablo Denes, Eugene Uretz, and Pietro Santarelli
- 1524 Comparison of Supervised and Unsupervised Exercise Training After Coronary Bypass Surgery. Richard Stevens and Peter Hanson
- 1529 Relation Between Electrocardiographic and Scintigraphic Location of Myocardial Ischemia During Exercise in One-Vessel Coronary Artery Disease. Robert M. Fox, A-Hamid Hakki, and Abdulmassih S. Iskandrian, *With the technical assistance of* Jacqueline Hackney
- 1532 Peak Exercise and Immediate Postexercise Imaging for the Detection of Left Ventricular Functional Abnormalities in Coronary Artery Disease. Duncan S. Dymond, Carl Foster, Raymond P. Grenier, John Carpenter, and Donald H. Schmidt
- 1538 Value of Lead V₄R for Recognition of the Infarct Coronary Artery in Acute Inferior Myocardial Infarction. Simon H. Braat, Pedro Brugada, Karel den Dulk, Vincent van Ommen, and Hein J. J. Wellens
- 1542 Persistent ST-Segment Elevation and Left Ventricular Wall Abnormalities: A 2-Dimensional Echocardiographic Study. Stephen Arvan and Murray A. Varat
- 1547 Sensitivity and Specificity of Nuclear Phase Analysis Versus Ejection Fraction in Coronary Artery Disease. Sharon L. Norris, Robert A. Slutsky, Kenneth H. Gerber, Kurt R. Geiss, William L. Ashburn, and Charles B. Higgins

ARRHYTHMIAS AND CONDUCTION DISTURBANCES

- 1553 Ventricular Arrhythmias During Exercise Testing: Mechanism, Response to Coronary Bypass Surgery and Prognostic Significance. Donald A. Weiner, Stephen R. Levine, Michael D. Klein, and Thomas J. Ryan
- 1558 Long-Term Clinical Outcome of Ventricular Tachycardia or Fibrillation Treated with Amiodarone. Brian McGovern, Hasan Garan, Robert F. Malacoff, John P. DiMarco, Gail Grant, T. Duncan Sellers, and Jeremy N. Ruskin

- 1564 Multicenter Controlled Observation of a Low-Dose Regimen of Amiodarone for Treatment of Severe Ventricular Arrhythmias. Collaborative Group For Amiodarone Evaluation*
- 1570 Entrainment of Atrioventricular Nodal Reentrant Tachycardias During Overdrive Pacing from High Right Atrium and Coronary Sinus: With Special Reference to Atrioventricular Dissociation and 2:1 Retrograde Block During Tachycardias. Bolivar Portillo, Jose Mejias, Nelly Leon-Portillo, Liaqat Zaman, Robert J. Myerburg, and Agustín Castellanos
- 1577 Cardiac Arrest Recorded on Ambulatory Electrocardiograms. Francis C. Kempf, Jr. and Mark E. Josephson

SYSTEMIC HYPERTENSION

- 1583 Failure of Antihypertensive Therapy with Diuretic, Beta-Blocking and Calcium Channel-Blocking Drugs to Consistently Reverse Left Ventricular Diastolic Filling Abnormalities. Isao K. Inouye, Barry M. Massie, Debra Loge, Paul Simpson, and Julio F. Tubau
- 1588 Antihypertensive Therapy with Diltiazem and Comparison with Hydrochlorothiazide. Isao K. Inouye, Barry M. Massie, Neal Benowitz, Paul Simpson, and Debra Loge

VALVULAR HEART DISEASE

- 1593 Limitations of Qualitative Angiographic Grading in Aortic or Mitral Regurgitation. Charles H. Croft, Kirk Lipscomb, Kenneth Mathis, Brian G. Firth, Pascal Nicod, Gregory Tilton, Michael D. Winniford, and L. David Hillis
- 1599 Comparison of Late (62 to 140 Months) Degenerative Changes in Simultaneously Implanted and Explanted Porcine (Hancock) Bioprostheses in the Tricuspid and Mitral Valve Positions in Six Patients. Steven R. Cohen, Marc A. Silver, Charles L. McIntosh, and William C. Roberts
- 1603 Favorable Effects of Hydralazine on the Hemodynamic Response to Isometric Exercise in Chronic Severe Aortic Regurgitation. Uri Elkayam, Charles R. McKay, Laura Weber, Daniel Eisenberg, and Shahbudin H. Rahimtoola

CARDIOMYOPATHY

- 1608 Potentially Lethal Arrhythmias and Their Management in Hypertrophic Cardiomyopathy. Martin J. Frank, Laurence O. Watkins, L. Michael Prisant, Miltiadis A. Stefanouros, and Abdulla M. Abdulla
- 1614 Chronic Verapamil Therapy in Pediatric and Young Adult Patients with Hypertrophic Cardiomyopathy. Robert L. Spicer, Albert P. Rocchini, Dennis C. Crowley, and Amnon Rosenthal
- 1620 Laser Myoplasty for Hypertrophic Cardiomyopathy: In Vitro Experience in Human Postmortem Hearts and In Vivo Experience in a Canine Model (Transarterial) and Human Patient (Intraoperative). Jeffrey M. Isner, Richard H. Clarke, Natesa G. Pandian, Roberta Fortin Donaldson, Deeb N. Salem, Marvin A. Konstam, Douglas D. Payne, and Richard J. Cleveland, *With the technical assistance of* John D. Bonin, Edwin W. Lojeski, and Alon Ahron

CONGENITAL HEART DISEASE

- 1627 Complete Transposition of the Great Arteries and Coarctation of the Aorta. Michael Vogel, Robert M. Freedom, Jeffrey F. Smallhorn, William G. Williams, George A. Trusler, and Richard D. Rowe
- 1633 Morphologic Features of an Intact Ventricular Septum Susceptible to Subpulmonary Obstruction in Complete Transposition. Ing-Sh Chiu, Robert H. Anderson, Fergus J. Macartney, Marc R. de Leval, and Jaroslav Stark

- 1639 Combined Contrast Echocardiographic and Radionuclide Diagnosis of Atrial Septal Defect: Accuracy of the Technique and Analysis of Erroneous Diagnoses.** Leonard E. Ginzton, William French, and Ismael Mena
- 1643 Electrophysiologic Abnormalities of Children with Ostium Secundum Atrial Septal Defect.** David G. Ruschhaupt, Leila Khoury, Otto G. Thilenius, Robert L. Replogle, and Rene A. Arcilla
- 1648 Long-Term Follow-Up After Palliative Operation for Univentricular Heart.** Douglas S. Moodie, Donald G. Ritter, Abdul H. Tajik, Dwight C. McGoon, Gordon K. Danielson, and W. Michael O'Fallon
- 1652 Atrioventricular Valve Annular Diameter: Two-Dimensional Echocardiographic-Autopsy Correlation.** Howard P. Gutgesell, J. Timothy Bricker, Edward V. Colvin, Larry A. Latson, and Edith P. Hawkins

MISCELLANEOUS TOPICS

- 1656 Effects of Beta₁-Selective and Nonselective Beta-Adrenoceptor Blockade During Exercise Conditioning in Healthy Adults.** Andrew A. McLeod, William E. Kraus, and R. Sanders Williams
- 1662 Pathophysiologic Mechanisms of Cardiac Tamponade and Pulsus Alternans Shown by Echocardiography.** F. Andrew Gaffney, Andrew M. Keller, Ronald M. Peshock, Jui-Chin Lin, and Brian G. Firth

METHODS

- 1667 Systolic Time Intervals Reconsidered: Reevaluation of the Prejection Period: Absence of Relation to Heart Rate.** David H. Spodick, Yoshinori L. Doi, Richard L. Bishop, and Tetsuo Hashimoto
- 1671 Radionuclide Ventriculographic Responses to Graded Supine and Upright Exercise: Critical Role of the Frank-Starling Mechanism at Submaximal Exercise.** Richard M. Steingart, John Wexler, Susan Slagle, and James Scheuer
- 1678 Quantification of Pulmonary Thallium-201 Activity After Upright Exercise in Normal Persons: Importance of Peak Heart Rate and Propranolol Usage in Defining Normal Values.** Kenneth A. Brown, Charles A. Boucher, Robert D. Okada, H. William Strauss, and Gerald M. Pohost

CARDIOVASCULAR PHARMACOLOGY

- 1683 Inhibition of Platelet Function by Injectable Isosorbide Dinitrate.** Raffaele De Caterina, Daniela Giannesi, Filippo Crea, Sergio Chierchia, Walter Bernini, Paolo Gazzetti, and Antonio L'Abbate

EXPERIMENTAL STUDIES

- 1688 Effects of Inotropic and Chronotropic Stimuli on Acute Myocardial Ischemic Injury. III. Influence of Basal Heart Rate.** Robert E. Rude, Larry R. Bush, Carlos Izquierdo, L. Maximilian Buja, and James T. Willerson
- 1695 Effect of Dextran and Aspirin on Platelet Adherence After Transluminal Angioplasty of Normal Canine Coronary Arteries.** Patrick T. O'Gara, Jose L. Guerrero, Barbara Feldman, John T. Fallon, and Peter C. Block
- 1699 Altered Acoustic Reflectance on Two-Dimensional Echocardiography as an Early Predictor of Myocardial Infarct Size.** Theodore D. Fraker, Jr., A. Dennis Nelson, Julie A. Arthur, and R. Douglas Wilkerson

- 1703 Comparison of the Canine Tissue Distribution of Digoxin After Acute and Chronic Administration: Implications for Digitalis Therapy.** L. Scott Cook, James E. Doherty, Ronald C. Elkins, and Karl D. Straub
- 1707 Electrophysiologic Effects of Bepridil in the Anesthetized Dog Studied by Endocardial Electrodes.** Antoine Sassine, Christian Masse, Alexandre Fajuri, Jean-Louis Hirsch, Claude Labrid, and Paul Puech
- 1712 Actions of Disopyramide on Potential Reentrant Pathways and Ventricular Tachyarrhythmias in Conscious Dogs During the Late Post-Myocardial Infarction Phase.** Stuart M. Cobbe, Ellen Hoffmann, Andreas Ritzenhoff, Johannes Brachmann, Wolfgang Kübler, and Jochen Senge

EDITORIALS

- 1719 Left Main Equivalence is Still an Unproved Hypothesis but Proximal Left Anterior Descending Coronary Artery Disease Is a "High-Risk" Lesion.** Shahbudin H. Rahimtoola
- 1722 The Future of Computerized Cardiac Angiography.** Walter L. Henry and Jonathan Tobis

BRIEF REPORTS

- 1725 High-Dose Intravenous Nitroglycerin During Cardiopulmonary Resuscitation for Refractory Cardiac Arrest.** William G. Ward and R. Leary Reid
- 1725 Recanalization of Occluded Left Main Coronary Artery in Unstable Angina Pectoris.** Raimund Erbel, Thomas Meinertz, Ignaz Wessler, Jürgen Meyer, and Walter Seybold-Epting
- 1727 Thrombolysis of Acute Total Occlusion of the Left Main Coronary Artery in Evolving Myocardial Infarction.** Pim J. de Feyter and Patrick W. Serruys. *On behalf of the Dutch Survey of Thrombolysis in Evolving Myocardial Infarction*
- 1729 Repetitive Paroxysmal Ventricular Tachycardia and Sudden Death in a Child.** Thomas W. Rowland and Marc J. Schweiger
- 1730 Transient ("Hole-in-One") Occlusion of the Mitral Valve Orifice by a Free-Floating Left Atrial Ball Thrombus: Identification by Two-Dimensional Echocardiography.** John S. Gottdiener, Barbara K. Temeck, Robert H. Patterson, and Ross D. Fletcher
- 1731 Tunnel Subaortic Stenosis in XO Turner's Syndrome.** Carl L. Tommaso, Daniel Konick, and David Green
- 1732 Two-Dimensional Echocardiographic Diagnosis of Quadricuspid Aortic Valve.** Krishnaswamy Chandrasekaran, Abdul J. Tajik, William D. Edwards, and James B. Seward
- 1733 Identification of a Rare Congenital Anomaly of the Myocardium by Two-Dimensional Echocardiography: Persistence of Isolated Myocardial Sinusoids.** Rolf Engberding and Franz Bender

PROCEEDINGS OF THE NATIONAL HEART, LUNG, AND BLOOD INSTITUTE WORKSHOP ON THE OUTCOME OF PERCUTANEOUS TRANSLUMINAL CORONARY ANGIOPLASTY

Kenneth M. Kent, MD, Suzanne M. Mullin, RN, MPH, and Eugene R. Passamani, MD, Guest Editors

- 1C Introduction: Workshop on Percutaneous Transluminal Coronary Angioplasty.** Vallee L. Willman
- 3C Historical Background of the National Heart, Lung, and Blood Institute Registry for Percutaneous Transluminal Coronary Angioplasty.** Suzanne M. Mullin, Eugene R. Passamani, and Michael B. Mock
- 7C Baseline Characteristics of Patients in the National Heart, Lung, and Blood Institute Percutaneous Transluminal Coronary Angioplasty Registry.** Katherine M. Detre, Richard K. Myler, Sheryl F. Kelsey, Mark Van Raden, Teresa To, and Herman Mitchell
- ACUTE OUTCOME OF PTCA**
- 12C Acute Coronary Events Associated with Percutaneous Transluminal Coronary Angioplasty.** Michael J. Cowley, Gerald Dorros, Sheryl F. Kelsey, Mark Van Raden, and Katherine M. Detre
- 17C In-Hospital Mortality Rate in the National Heart, Lung, and Blood Institute Percutaneous Transluminal Coronary Angioplasty Registry.** Gerald Dorros, Michael J. Cowley, Lynne Janke, Sheryl F. Kelsey, Suzanne M. Mullin, and Mark Van Raden
- 22C Emergency Coronary Bypass Surgery After Coronary Angioplasty: the National Heart, Lung, and Blood Institute's Percutaneous Transluminal Coronary Angioplasty Registry Experience.** Michael J. Cowley, Gerald Dorros, Sheryl F. Kelsey, Mark Van Raden, and Katherine M. Detre
- 27C Long-Term Efficacy of Percutaneous Transluminal Coronary Angioplasty (PTCA): Report from the National Heart, Lung, and Blood Institute PTCA Registry.** Kenneth M. Kent, Lamberto G. Bentivoglio, Peter C. Block, Martial G. Bourassa, Michael J. Cowley, Gerald Dorros, Katherine M. Detre, Arthur J. Gosselin, Andreas R. Gruentzig, Sheryl F. Kelsey, Michael B. Mock, Suzanne M. Mullin, Eugene R. Passamani, Richard K. Myler, John Simpson, Simon H. Stertz, Mark J. Van Raden, and David O. Williams
- 32C Efficacy of Repeat Percutaneous Transluminal Coronary Angioplasty for Coronary Restenosis.** David O. Williams, Andreas R. Gruentzig, Kenneth M. Kent, Katherine M. Detre, Sheryl F. Kelsey, and Teresa To
- 36C Exercise, Electrocardiographic and Functional Responses After Percutaneous Transluminal Coronary Angioplasty.** Douglas R. Rosing, Mark J. Van Raden, Rita M. Mincemoyer, Robert O. Bonow, Martial G. Bourassa, Paul R. David, Carolyn J. Ewels, Katherine M. Detre, and Kenneth M. Kent
- 42C Early and Late Morphologic Changes in Major Epicardial Coronary Arteries After Percutaneous Transluminal Coronary Angioplasty.** Bruce F. Waller, H. Joel Gorfinkel, Felix J. Rogers, Kenneth M. Kent, and William C. Roberts

- 48C Return to Work After Coronary Angioplasty: A Report from the National Heart, Lung, and Blood Institute Percutaneous Transluminal Coronary Angioplasty Registry.** David R. Holmes, Jr., Mark J. Van Raden, Guy S. Reeder, Ronald E. Vlietstra, Geun C. Jang, Kenneth M. Kent, George W. Vetrovec, Michael J. Cowley, Gerald Dorros, Sheryl F. Kelsey, Katherine M. Detre, and Michael B. Mock
- 52C Relative Cost of Coronary Angioplasty and Bypass Surgery in a One-Vessel Disease Model.** Geun C. Jang, Peter C. Block, Michael J. Cowley, Andreas R. Gruentzig, Gerald Dorros, David R. Holmes, Jr., Kenneth M. Kent, Louis L. Leatherman, Richard K. Myler, S. Matts E. Sjolander, Simon H. Stertz, George W. Vetrovec, William H. Willis, Jr., and David O. Williams
- 56C Effect of Investigator Experience on Percutaneous Transluminal Coronary Angioplasty.** Sheryl F. Kelsey, Suzanne M. Mullin, Katherine M. Detre, Herman Mitchell, Michael J. Cowley, Andreas R. Gruentzig, and Kenneth M. Kent
- 65C Learning Curve for Percutaneous Transluminal Coronary Angioplasty: Skill, Technology or Patient Selection.** Bernhard Meier and Andreas R. Gruentzig
- 67C Summary: Acute and Chronic Outcome of Percutaneous Transluminal Coronary Angioplasty.** Michael B. Mock

EXPERIMENTAL STUDIES AND CLINICAL INVESTIGATIONS

- 69C Mechanism of Transluminal Angioplasty.** Peter C. Block
- 72C Effect of Antiplatelet Therapy on Restenosis After Experimental Angioplasty.** David P. Faxon, Timothy A. Sanborn, Christian C. Haudenschild, and Thomas J. Ryan
- 77C Restenosis After Percutaneous Transluminal Coronary Angioplasty (PTCA): A Report from the PTCA Registry of the National Heart, Lung, and Blood Institute.** David R. Holmes, Jr., Ronald E. Vlietstra, Hugh C. Smith, George W. Vetrovec, Kenneth M. Kent, Michael J. Cowley, David P. Faxon, Andreas R. Gruentzig, Sheryl F. Kelsey, Katherine M. Detre, Mark J. Van Raden, and Michael B. Mock
- 82C Percutaneous Transluminal Coronary Angioplasty (PTCA) in Patients with Relative Contraindications: Results of the National Heart, Lung, and Blood Institute PTCA Registry.** Lamberto G. Bentivoglio, Mark J. Van Raden, Sheryl F. Kelsey, and Katherine M. Detre
- 89C Percutaneous Transluminal Coronary Angioplasty (PTCA) in the Elderly Patient: Experience in the National Heart, Lung, and Blood Institute PTCA Registry.** Michael B. Mock, David R. Holmes, Jr., Ronald E. Vlietstra, Bernard J. Gersh, Katherine M. Detre, Sheryl F. Kelsey, Thomas A. Orszulak, Hartzell V. Schaff, Jeffrey M. Piehler, Mark J. Van Raden, Eugene R. Passamani, Kenneth M. Kent, and Andreas R. Gruentzig. *Participants in the National Heart, Lung, and Blood Institute Percutaneous Transluminal Coronary Angioplasty Registry*

TECHNOLOGICAL CONSIDERATIONS

- 92C Current Status of Dilatation Catheters and Guiding Systems.** Andreas R. Gruentzig and Bernhard Meier

- 94C **Advances in Guidewire Technology.** Bruce J. McAuley and John B. Simpson
- 97C **Current Status of Dilatation Catheters and Guiding Systems.** Thomas J. Fogarty, Thomas B. Kinney, and James C. Finn
- 101C **Summary: Experimental Studies, Clinical Investigations and Technological Considerations.** Francis J. Klocke

SURGICAL CONSIDERATIONS

- 102C **Progression of Atherosclerosis in Coronary Arteries and Bypass Grafts: Ten Years Later.** Martial G. Bourassa, Marc Enjalbert, Lucien Campeau, and Jacques Lesperance
- 108C **Surgical Intervention for Failed Percutaneous Transluminal Coronary Angioplasty.** Cary W. Akins and Peter C. Block
- 112C **Potential for Percutaneous Transluminal Coronary Angioplasty Before Initial and Repeat Coronary Artery Bypass Grafting in the Coronary Artery Surgery Study (CASS) Registry Population.** Eric D. Foster, Lloyd D. Fisher, George C. Kaiser, William O. Myers, Joyce Carpenter, Sally Abele, and Richard Eli, *With the Principle Investigators of CASS and Their Associates*
- 115C **Summary: Surgical Considerations.** Vallee L. Williams

CURRENT CLINICAL TOPICS

- 117C **Percutaneous Transluminal Coronary Angioplasty: Application for Acute Myocardial Infarction.** Geoffrey O. Hartzler, Barry D. Rutherford, and David R. McConahay

- 122C **Combined Intracoronary Streptokinase Infusion and Coronary Angioplasty During Acute Myocardial Infarction.** Herman K. Gold, Michael J. Cowley, Igor F. Palacios, George W. Vetrovec, Cary W. Akins, Peter C. Block, and Robert C. Leinbach

- 126C **Complex Coronary Angioplasty: Multiple Coronary Dilatations.** Gerald Dorros, Simon H. Stertzer, Michael J. Cowley, and Richard K. Myler

- 131C **Role of Percutaneous Transluminal Coronary Angioplasty in the Treatment of Unstable Angina: Report from the National Heart, Lung, and Blood Institute Percutaneous Transluminal Coronary Angioplasty and Coronary Artery Surgery Study Registries.** David P. Faxon, Katherine M. Detre, Carolyn H. McCabe, Lloyd Fisher, David R. Holmes, Michael J. Cowley, Martial G. Bourassa, Mark Van Raden, and Thomas J. Ryan

- 136C **Current Clinical Topics: Potential Future Uses for Percutaneous Transluminal Coronary Angioplasty.** Elliott Rapaport

FUTURE RESEARCH DIRECTIONS

- 138C **Design of Comparative Clinical Studies of Percutaneous Transluminal Coronary Angioplasty Using Estimates from the Coronary Artery Surgery Study.** Lloyd D. Fisher, David R. Holmes, Jr., Michael B. Mock, Mary Pettinger, Ronald E. Vlietstra, Hugh C. Smith, Thomas J. Ryan, Melvin P. Judkins, Arthur J. Gosselin, and David P. Faxon

- 146C **Summary: Future Research Directions.** Vallee L. Willman
